**METEOR
CHERRY**

A NEW ROSE TREASURE **Buccaneer**

Plant Patent No. 1119

This bold, daring Rose will be the pirate of your garden. The large blooms, each a golden treasure, will surely steal your attention. We most heartily recommend this jaunty freebooter for your garden. \$2.75 each; 3 for \$7.25. We pay postage.

Spring-Summer
1953

DEAR FRIENDS:

Eighty-one years ago, our Grandfather started Andrews Nursery. Since then he, his sons, and now we, have made thousands of friends throughout the United States—all because we've built this business on one idea—we want you to be a satisfied user!

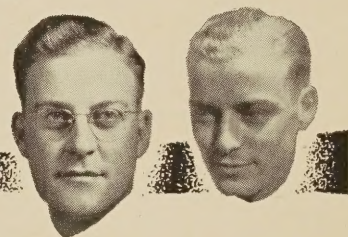

We take special pride in developing and growing this nursery stock, realizing that our customers will also appreciate each item we have so carefully grown. When we receive a letter from a customer we throw out our chests just a tiny bit when we read about the wonderful results he or she has had with our nursery stock.

If, by chance, you have not as yet purchased any nursery stock from us, why don't you try us this spring? We are confident that if you will try us just once, you will keep coming back year after year for other plants and trees that will beautify your home.

As our Grandfather said, "The proof of the pudding is in the eating—and the proof of our plants and trees is in the growing. Not in our nursery, but IN YOUR YARD, GARDEN OR ORCHARD."

If you are not 100% satisfied with any item you receive from us, don't hesitate to let us know—we consider your satisfaction to be just as important to us as the production of the finest quality nursery stock.

Most cordially yours,
KIM and DICK ANDREWS

OUR Guarantee TO YOU

"A good customer is a satisfied customer." Since 1872, that's been our policy. We guarantee that every single item of nursery stock you receive from us will arrive in good growing condition. If it doesn't, we'll replace it immediately at absolutely no cost to you.

We pack your shipment very carefully, but if it should arrive damaged, and if it went by express or freight, we'd appreciate receiving your express or freight receipt with a statement from the agent showing loss or damage so that we can file a claim with the transportation company.

If by chance, a tree, shrub or plant, received from us, dies during the first growing season, we want to be fair. We'll replace it at one-half the cost to you. We want you to be pleased with your purchase. We merely ask that you make your report and have your replacement order in our hands by October 15th following date of shipment.

Every item in this catalog is true-to-name. We guarantee it as such. If by chance an item should prove to be something other than you purchased, you will receive a free replacement or your money will be cheerfully refunded. Of course, as you understand, we can't be liable for any damage other than that mentioned above. However, when you receive Andrews Nursery stock, it's guaranteed to be in good growing condition.

KIM and DICK ANDREWS

why buy by mail ??

That's a question that thousands of folks who have bought trees and plants from Andrews Nursery would gladly answer.

Here's what they'll say:

You make your selections from a complete, fully-illustrated catalog, at your leisure, permitting **more careful decisions.**

The whole family gets in on the fun, sitting around on winter evenings, making plans together for your spring planting.

You have the **convenience** of shopping by mail . . . which places all the modern facilities of Andrews Nursery as close as your mailbox. (You can tramp over our hundreds of acres just sitting in your arm chair).

And perhaps most important of all, you are assured of receiving top quality plants and trees in their prime. That's because our modern storage, with strict humidity and temperature control, keeps this stock fresh and in excellent growing condition until it is shipped.

All of these are sound reasons for buying **your** plants and trees by mail from Andrews Nursery. Our eighty-year reputation for furnishing good, sound, high vitality plants . . . together with our straightforward guarantee of satisfaction—promises that new customers, as well as old, will be completely pleased.

we pay postage

No need for you to wonder how much shipping charges are going to be. We pay the postage or express charges on everything in this year's catalog, except for a very few items. Shade and ornamental trees, evergreens, and large quantity raspberry purchases are sent Express Collect. If your order includes both prepaid and not prepaid items, we will send the entire order Express Collect, provided it can be shipped together, but will include in your order, **FREE**, some selected items which will be of greater value than the shipping charges of the prepaid items. Of course, if you would prefer to have the prepaid and not prepaid items sent separately, simply let us know and we will follow your instructions.

FREE BONUS PLANTS FOR EARLY ORDERS

Placed Before March 15th.

Early orders help avoid the "planting-time-rush" and are much easier for us to handle. We want to pass this saving on to you by giving you **Free Bonus Plants**. If you send us your order for nursery stock before March 15th, you may select one premium from the list below for each \$5 of your order. For example: If your order totals \$5, you may select one premium; if it totals \$10, you may select two, and so on.

- ① 1 Apple Tree (our choice of variety) 3-4 ft. Value \$1.30 and up
- ② 2 Fredonia Grapes. 2-yr., No. 1 Value 1.00
- ③ 2 Summer Blooming Lilacs. 15-18 in. Value 1.00
- ④ 1 Blue Leaf Shrub. 2-3 ft. Value 1.10
- ⑤ 10 Gladiolus Bulbs (our choice of varieties) . . Value 1.10
- ⑥ 1 Rose Bush (our choice) Value 1.00 and up
- ⑦ 1 Choice Peony (selected from America's best varieties) Value 1.25 and up

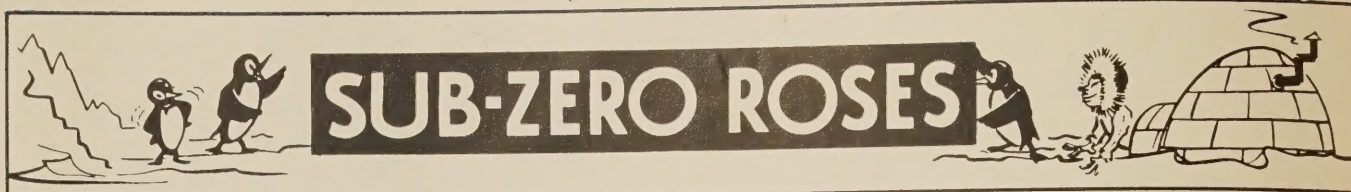

Double the size of your berries with **BERRY-SET**

Here is something you'll want to try. Berry-Set makes berries grow much larger—often 50% to 100% **BIGGER, MEATIER, AND SWEETER.** Increases berry yields greatly. Sprayed berry plants bear ripe fruits over a longer period of time; therefore gardeners enjoy a longer season and greater value from their berries. Easy to use—just mix with water and spray on the flowers. Complete instructions with each order.

\$1.00**

We pay the postage.

SUB-ZERO ROSES

*Why You, Too, Should
Grow Sub-Zero Roses*

Sub-Zeros are beautiful, easy to grow—and the hardiest of all Hybrid Tea Roses. This exciting type brings to the rose gardener a new race of hybrid tea roses equal to the best in form and color—but, being bred back to very hardy strains, Sub-Zeros possess a great deal more hardiness. **Greater hardiness means longer lived plants**—and more pleasure for you. For the Northern gardener, they are the most dependable. We believe they should form the framework of the Northern rose garden, but of course, a liberal use of the regular Hybrid Teas will help to give an even wider range of color and form. All Sub-Zeros we offer are 2-year, No. 1, field-grown plants or larger.

Tip Toes

Lily Pons

Queen
o' the
Lakes

LILY PONS

The large, graceful flowers of Lily Pons are white with a pale lemon-yellow shading in the center. Free flowering, **Lily Pons will produce upwards of a hundred perfectly formed flowers** in a season, and we predict will be one of your favorites. Plant Pat. No. 420. \$1.75 each; 3 for \$5.00. We pay the postage.

QUEEN O' the LAKES

This gorgeous, **crimson queen of flowers** was named in honor of the reigning Queen of the Minneapolis Aquatennial. One of the best red roses, this lovely **completely double**, long lasting and prolific. Its grace and form will make it a high spot in your garden. Plant Pat. No. 1003. \$1.75 each; 3 for \$5.00. We pay the postage.

Shades
of
Autumn

SHADES of AUTUMN

An abundant and joyous expression of bi-colored beauty. You'll delight in its delicate autumn shades. A glowing rose developed for the Northern gardener. Plant Pat. No. 542. \$1.75 each; 3 for \$5.00. We pay the Postage.

CURLY PINK

One of the very best of all pink roses. Curly Pink continues to amaze us. Once established, each stem produces several large two-toned pink blossoms forming a gorgeous bouquet on a single stem. We have had reports from customers of over 50 blooms on a single plant at one time. Plant Pat. No. 842. \$1.75 each; 3 for \$5.00. We pay the Postage.

TIP TOES

Tip Toes is one of the favorites with visitors to our rose garden. The large flowers are a delightful mixture of red, orange and pink tints, with an enjoyable spice-like fragrance. It never fails to please. Plant Pat. No. 849. \$1.75 each; 3 for \$5.00. We pay the Postage.

DICK WILCOX

This rose is vigorous, free blooming and one of the hardiest. The luxuriant deep, deep red blooms borne in profusion make it a must for every rose garden. Plant Pat. No. 845. \$1.75 each; 3 for \$5.00. We pay the Postage.

MORE SUB-ZERO ROSES

V for Victory

V for VICTORY

The large, very double, clear yellow blooms combined with a lovely fragrance distinguish V for Victory. Constantly in bloom, the strong yellow coloring doesn't fade, even in the hottest sun. Plant Pat. No. 543. \$1.75 each; 3 for \$5.00. We pay the Postage.

CEDRIC ADAMS

Named for the Upper Mid-West's favorite radio personality, a lover of people and roses, this magnificent plant carries multitudes of large, completely double scarlet to carmine roses. Truly an aristocrat of rosedom. (Prop. Rights Res.) \$1.75 each; 3 for \$5.00. We pay the Postage.

F. J. Grootendorst

Super Hardy RUGOSA ROSES

Prices: 2-yr., field-grown plants, \$1.45 each; 3 for \$3.75; 12 for \$14.50.
We pay the Postage.

For extreme locations where no other roses will do well, plant these **super hardy roses**—they will not fail. We think of Rugosa roses as **flowering shrubs** and as such they are truly outstanding. Use them in the planting around the house—or as a flowering hedge. They require no more care than any hardy shrub and their colorful blooms make them **outstanding**.

AMELIE GRAVEREAUX

An excellent red bloom very good as a cut flower. Hardy, dependable.

AUSTRIAN COPPER

A very nice bloom of diffused coppery tones. Nice rugged plant.

DR. ECKENER

Large, fragrant blooms somewhat similar to the Pres. Herbert Hoover hybrid tea. An excellent variety.

F. J. GROOTENDORST

Small, lively **cherry-red** blooms borne in clusters. Always popular, and very good in hedges.

HANSA

An **extremely hardy** and vigorous bush. Used extensively in group plantings and in hedges. The large **crimson** blooms are borne abundantly.

Amelie Gravereaux

Some Old Favorite HYBRID TEA Roses

Prices: \$1.35 each; 3 for \$3.65; 12 for \$13.50.

We pay the Postage.

Some of the older roses are still very popular and we feel that the best of them still belong in the modern rose garden. Below are listed some that we feel are very good.

CHRISTOPHER STONE. An excellent scarlet with good form.

CANDEUR LYONNAISE. A free blooming pure white.

THE DOCTOR. Still one of the better pinks.

McGREY'S YELLOW. All of the McGredy roses are good, but we like the yellow best.

CONDESA DE SASTAGO. A red and yellow two-tone. Well liked.

Christopher Stone

6 of the very Finest

PEACE

We wish we had space to print all of the letters we have had from customers raving about their Peace rose. It is impossible to show the exquisite beauty of Peace with a single photograph. You'll marvel at the dawnlike range of colors through which it passes. From a bud of golden yellow etched with pink it turns upon opening to a canary-yellow then to a pale gold and finally to an iridescent cream set off by the apple-blossom-pink edging. The huge 5-6 inch blooms are borne on husky stems. Peace is truly one of the greatest roses of all time. Plant Pat. No. 591. \$2.50 each; 3 or more, \$2.20 each. We pay the Postage.

Peace

Peace Collection

1 Peace
1 First Love
1 Bravo

All 3 for

Only \$6.20

(Regular Value \$7.50)

First Love

FIRST LOVE

The long slender buds of First Love are some of the loveliest we have ever seen. They are a delicate shade of dawn pink, and open slowly. Each flower is borne singly on long stems, making it an exceptional cut flower. The plant is vigorous and the deep green leaves tend to add beauty to the buds with a perfect color complement. Plant Pat. No. 921. \$2.25 each; 3 for \$6.00.

We pay the Postage.

Bravo

BRAVO

A big, bold red rose that will completely dominate your rose garden at the peak of its bloom. We know of no other rose that can equal the brilliant cardinal-red color of Bravo. When at its peak it got as many "Ahs" and "Ohs" from the visitors to our gardens as Peace. Planted in front of Peace and First Love—forming a triangle—will give you a rose planting that you'll never forget. Plant Pat. No. 983. \$2.25 each; 3 or more, \$2.00 each. We pay the Postage.

HYBRID TEA ROSES

CHIEF SEATTLE

This rose was selected by the Seattle Rose Society to be named in honor of the Indian Chief that founded Seattle 100 years ago. They were selective all right, as **Chief Seattle** is a beautiful and unusual rose. The **large blooms** are an exquisite **buff-apricot**. The buds are high centered, and although a thing of beauty in bud, it is equally striking when fully open. The stems are remarkably long and straight giving us **another excellent cutting rose**. Only a year old, we are proud to be able to offer you this wonderful rose. Plant Pat. No. 1030. \$2.50 each; 3 for \$6.60. We pay the Postage.

Chief
Seattle

CRIMSON GLORY

Perfectly named, this **velvety crimson beauty** with its black and maroon shadings is indeed a glorious sight. The urn-shaped buds open with a splendor seldom rivaled. The thick velvety petals give the appearance of reflecting light like glowing embers. The **rich rose fragrance** is reminiscent of the old-fashioned rose. Plant Pat. No. 105. \$1.75 each; 3 for \$4.65. We pay the Postage.

Crimson
Glory

HELEN TRAUBEL

Here is an exciting new rose that just can't miss being proclaimed **one of the greatest of all time**. The plant is tall and bushy and nearly always in bloom. The **very large, long slender buds** are exquisite. The color varies somewhat depending on the weather—sometimes a light **sparkling pink**, more often a **luminous apricot** (its usual color) but sometimes ranging into a rich bronzy orange. **Helen Traubel** is distinctively new, and exceptional in form and color. Plant Pat. No. 1028. \$2.75 each; 3 for \$7.20. We pay the Postage.

Lovely Floribundas

How to Use Floribunda Roses

Floribunda roses are rapidly gaining in popularity, because of their many uses and abundance of bloom. They are striking when used in solid beds, either formal or informal. They add charm to the perennial border and are distinctive when used as edgings for walks or drives. They are also effective when planted at the base of climbers, such as a pair of Red Pinocchio set at the base of White Dawn.

PINOCCHIO

This bold little Floribunda, the parent of many other excellent floribunda roses, will worm its way into your heart with its hundreds of jaunty, long lasting miniature tea roses, 1½ inches across. All summer long great clusters of delicate salmon buds, flushed with gold at the base, gradually soften to clear pink as the little "sweetheart" flowers open and take on deeper pink edges. **Pinocchio** is incomparable for miniature flower arrangements and boutonnieres. Plant Pat. No. 484. \$1.50 each; 3 or more, \$1.30 each. We pay the Postage.

RED PINOCCHIO

Red Pinocchio is a favorite of almost everyone here at the nursery. Masses of delightfully fragrant roses are borne in large long lasting clusters. The buds are a rich carmine taking on a velvety hue as the flowers open. They last an amazingly long time as cut flowers, too. Plant Pat. No. 812. \$1.50 each; 3 for \$3.90. We pay the postage.

MARIONETTE

Marionette is Pinocchio in white. A true "sport" of Pinocchio, it is the same in every respect except color. The buds are a delicate creamy yellow. As the fully double, 1½-inch flowers open the pastel tint changes gradually to an immaculate white before the flowers finish. Large clusters are produced continuously until frost brings a halt. Plant Pat. No. 569. \$1.50 each; 3 for \$3.90. We pay the Postage.

Geranium
Red

Marionette

Goldilocks

GOLDILOCKS

This little 2½-ft. Floribunda will be a source of continual amazement to you as it spills its **hundreds of perfectly formed, double, golden yellow flowers** into your garden. Our most popular yellow floribunda rose, **Goldilocks** is continuously in bloom. You'll not want to be without Goldilocks. Plant Pat. No. 672. \$1.50 each; 3 or more, \$1.30 each. We pay the Postage.

MING TOY

The daintiness of the flower would make one think that **Ming Toy** is a delicate and tender rose. However, in spite of the fact that the finely shaped petals give it the appearance of a lovely miniature camellia, the plant itself is well adapted for mass plantings. Excellent for cutting too, as the **flowers will last 5 or 6 days in a vase**. We love it planted with Goldilocks. Plant Pat. No. 900. \$1.50 each; 3 or more, \$1.30 each. We pay the Postage.

Ming Toy

VOGUE

A delightful new addition to the Floribunda family.

Vogue, a handsome plant, carries loads of **rich cherry-coral, well-formed blooms of hybrid tea form**. Large, 3-4 inch, delightfully fragrant flowers unfold from a rather deep colored bud. Mix a few Vogue in with an evergreen planting—each will complement the other. Plant Pat. No. 926. \$2.25 each; 3 for \$6.00. We pay the Postage.

Vogue

KING BOREAS

This sturdy **Sub-Zero Floribunda** is a lively glistening yellow. The blooms are very double and are borne in clusters. The plants are hardy and very free flowering. We think it is an **excellent yellow floribunda** and can be used with evergreen plantings to great advantage. **King Boreas** was named in honor of the reigning King of the St. Paul Winter Carnival. Propagation Rights Reserved. \$1.75 each; 3 for \$5.00; 12 for \$18.00. We pay the Postage.

FASHION

We think **Fashion** is one of the finest floribunda roses ever created. Last year a large mass planting in our rose garden was one of the brilliant high spots for visitors all summer long. The blooms begin in June and continue as a gay and joyous display until frost. The **Oriental red buds** slowly diffuse into a coral blended with gold as they open. Truly a champion. Plant Pat. No. 789. \$2.00 each; 3 for \$5.25. We pay the Postage.

Fashion Collection

1 Fashion	All 3
1 Goldilocks	for \$4.35
1 Ming Toy	We Pay the Postage.

GERANIUM RED

Here is an odd little fellow that we just love. Imagine a rose the **color of a geranium**. The blooms, large for a floribunda—up to 4 inches across—resemble camellias in form. We wouldn't want to be without this one and we are sure you won't either once you see it. \$1.50 each; 3 for \$3.90. We pay the Postage.

Fashion

Climbing Roses

Paul's Scarlet

PAUL'S SCARLET

The most popular red climber produces brilliant masses of vivid, scarlet-red blooms that do not burn nor fade. \$1.25 each; 2 for \$2.35. We pay the Postage.

White Dawn

Climbing Roses can add loads of charm to any home. Allowed to climb up trellises against sections of the house or garage, where there are no windows, they will reduce bareness and create color and beauty you never knew before. Wonderful, too, trained over arbors or gateways.

WHITE DAWN

America's finest everblooming white climbing rose. White Dawn blooms the first year planted—a feature you will like. Hundreds of pure glistening white, completely double blooms, resembling gardenias are borne year after year. The most persistent climber we know. Developed from a cross between New Dawn and Lily Pons Sub-Zero Hybrid Tea by the University of Minnesota. \$2.00 each; 2 for \$3.75. We pay the Postage.

Aloha

CL. BREAK O' DAY

A Sub-Zero climber with a beautiful orange-apricot shading that lends a very unusual touch to any garden. Plant Pat. No. 696. \$2.00 each; 3 for \$5.50. We pay the Postage.

ALOHA

A sensational new everblooming pink rose that bursts into bloom from top to bottom with its huge deep rose-pink blooms. The coral-pink buds open the show and slowly open to huge blooms—some up to 4 inches across. A new and very welcome pink climber. Plant Pat. No. 948. \$2.50 each; 3 for \$6.60. We pay the Postage.

NEW DAWN

The beautiful, very fragrant, pale shell-pink blooms of New Dawn have made it a favorite with gardeners everywhere. Blooms more abundantly than any other climber we know except White Dawn. \$1.45 each; 2 for \$2.75. We pay the postage.

New Dawn

Lovely LILACS

Spring and beautiful, fragrant Lilacs! What memories they bring back with their sweet scent enveloping the whole house and yard. Our mothers loved them—on the bush or on the table—in luxurious profusion.

FRENCH LILACS

Only in French Lilacs can you get such a wide variety of colors for those gorgeous mixed bouquets. They bloom earlier, have greater beauty, more fragrance, and more attractive foliage than the old common lilac.

CHARLES JOLY. One of the very best of the double dark reds. Large blooms.

CHARLES X. A beautiful single deep red. Blooms heavily and is one of the best for cutting.

MME. CASIMIR PERIER. A free-blooming double white that is a strong grower and very dependable.

MME. LEMOINE. Large, pure white double blooms distinguish this excellent variety.

PRES. GREVY. A double with giant panicles of a clear, soft delicate blue.

ALPHONSE LAVALLE. A double blue that is an excellent grower. One of the best.

PRES. CARNOT. A lovely double orchid-pink of indescribable delicacy.

RED CHINESE LILAC (Rothomagensis rubra)

We rate this lilac up with the best. Sometimes called the "Improved Persian," it is one of the most beautiful and showy lilacs in cultivation. We like it particularly for the large, loose clusters of rich red flowers and the clean, delicate leaves. An excellent shrub even when not in bloom. The flower season is just after the French Hybrids, but the plants will begin blooming when younger. Its ultimate height is 8 or 9 feet. It is hardy in any climate—very dense and bushy, and best of all it's extremely colorful. 2-3 ft., \$1.50 each; 3 for \$4.20; 12 for \$15.00. 18-24 in., \$1.25 each; 3 for \$3.55; 12 for \$12.50. We pay the postage.

VILLOSA LILAC (Summer Blooming)

A late blooming lilac that we feel isn't used nearly enough. It makes a wonderful display after all the other lilacs are through. From a distance it looks much like the Red Chinese, but the blooms are lighter in color, and the leaves have a distinctive leathery appearance. Extremely hardy, *Villosa* is one of the best as a shrub, excellent as a hedge, or for windbreak planting. (See page 29.) 2-3 ft., \$1.35 each; 3 for \$3.85. 18-24 in., \$1.10 each; 3 for \$3.10. We pay the postage.

Flowering Shrubs to

Hydrangea
P. G.

Good Gardening Means Good Living. Trees and shrubs well chosen and placed make a house a home. A carefully selected list of plants will add to the **color and charm** of your home and will provide flowers for border or bouquet from spring until frost. **Add to your home by planting this spring.**

HYDRANGEA P. G.

Massive, **snowy white**, cone-shaped flowers in August and September turn to a **coppery pink** as they mature. Dried blossom heads make fine winter bouquets. 2-3 ft., \$1.35 each; 3 for \$3.85. 18-24 in., \$1.10 each; 3 for \$3.10, prepaid.

HYDRANGEA A. G.

Large, **pure white** blooms like snowballs from June until August. Grows 3 to 4 feet tall. **Hardy**, thrives anywhere. Does especially well in shade. Should be cut back to within 8 inches of the ground each spring for best flowering results. 18-24 in., \$1.25 each; 3 for \$3.55. 12-18 in., \$1.00 each; 3 for \$2.80, prepaid.

FORSYTHIA (Golden Bell)

Earliest shrub to bloom, Forsythia has great masses of **bright yellow** flowers before the leaves appear. Foliage is a rich dark green. Grows to about 5 feet. Should be protected in Minnesota. 2-3 ft., \$1.55 each; 3 for \$4.45. 18-24 in., \$1.20 each; 3 for \$3.40, prepaid.

WEIGELA EVA RATHKE

Visitors will admire this excellent border and foundation shrub. In the spring it is covered with **red trumpet-shaped** flowers. Grows to be from 4 to 5 feet high. 2-3 ft., \$1.55 each; 3 for \$4.45, prepaid.

BLUE LEAF SHRUB

A very charming shrub with **silvery blue-green** foliage. Grown primarily for hedging (see page 19) but we have had such a demand for shrub sizes that we have grown some longer for that purpose. Grows only 3 to 4 feet high and is extremely hardy. Very colorful when worked in with such things as Golden Elder or Red Flash. 2-3 ft., \$1.10 each; 3 for \$3.10. 18-24 in., 90c each; 3 for \$2.45, prepaid.

Forsythia

GOLDEN MOCKORANGE

One of our most popular shrubs, and a favorite of ours as well, the **Golden Mockorange** is not a large shrub (about 4-5 ft.) and because of its **bright yellow** leaves early in the season it is excellent when used with such shrubs as Red Flash, Red Leaf Barberry, Winged Bark Burning Bush and the Blue Leaf Shrub. From a distance it looks like a continuous bloom of yellow flowers—but in June it is covered with the same very fragrant white blossoms that we associate with the regular Mockorange. 18-24 in., \$1.95 each; 3 for \$5.45. 15-18 in., \$1.65 each; 3 for \$4.55, prepaid.

ROSE TREE OF CHINA

(Prunus Triloba)

Branches are hidden under a fleecy cloud of **bright pink** double blossoms resembling small pink roses, even before leaves are out in the spring. A breath-taking sight in full bloom, especially when it reaches full height of about 6 feet. Should be included in every yard. **Very hardy** and easy to grow. 3-4 ft., \$2.95 each; 3 for \$8.25. 2-3 ft., \$2.45 each; 3 for \$6.85, prepaid.

Golden Mockorange

Brighten Your Home

MOCKORANGE, Virginal

One of the most popular shrubs for landscaping. The bushes are filled with large, lovely pure white semi-double flowers with orange blossom fragrance. Virginal is a neat, semi-dwarf shrub growing only 6 to 7 feet tall. Can be easily kept lower by trimming. Blooms profusely in May and June. Widely planted for years because it is trim and beautiful—easy to grow—hardy and vigorous. Very useful for screens, backgrounds and fillers as well as for specimen shrubs. 2-3 ft., \$1.60 each; 3 for \$4.60. 18-24 in., \$1.25 each; 3 for \$3.55, prepaid.

MOCKORANGE, Snowflake

The new, hardy, fast growing Minnesota Snowflake Mockorange has pure white flowers that are completely double and exceptionally sweet scented. Makes a shapely graceful specimen shrub with a profusion of fragrant blooms in mid-summer. Will reach 8 to 10 ft. tall but can be held smaller by trimming and will still bloom readily. Plant Pat. No. 538. 2-3 ft., \$1.85 each; 3 for \$5.15. 18-24 in., \$1.55 each; 3 for \$4.45, prepaid.

Mockorange, Virginal

MOCK ORANGE Coronarius

The old favorite Mockorange. The size is greater than Virginal or Snowflake and for screening purposes it is better. However, for foundation planting around the house the other two are to be preferred. Coronarius is a spreading shrub of 8 to 10 feet in height with single, but very fragrant blooms. Attractive foliage makes it perfect for background work or for screening. 2-3 ft., \$1.25 each; 3 for \$3.55. 18-24 in., 95c each; 3 for \$2.55, prepaid.

Andrews' Landscape Service

If you would like professional help with your landscaping, we will, upon request, send you some drawing paper with directions for drawing your house and lot to scale. From this rough sketch our expert landscape draftsmen finish a complete planting plan with suggestions of trees and shrubs best suited to your soil. For this service, we make a charge of \$5.00. However, if your order for nursery stock for the season amounts to \$50.00 or more, the charge is deducted from the total, thus making the service free. No plans can be prepared after April 1st.

Russian Olive

RED FLASH (Prunus Cistena)

Purple-Leaved Cherry. The most brilliant of all the larger red-leaved shrubs. The delicate pink blooms in early spring are followed by rich red leaves that last throughout the season. It will achieve its best color when planted in full sunlight. Red Flash cannot be surpassed for yard or foundation planting, where a distinctive spot of unusual coloring is desired. Especially attractive when grouped with such shrubs as Russian Olive or Golden Leaf Elder. 2-3 ft., \$2.45 each; 3 for \$6.95. 18-24 in., \$2.00 each; 3 for \$5.55, prepaid.

Be Sure to Order Plant Food

Red Flash

RUSSIAN OLIVE

The charming silver-gray foliage of Russian Olive lends a pleasing contrast to deeper greens. It makes a good background, too, for red-leaved shrubs like Red Leaf Barberry and Red Flash. In spring it is covered with small, very fragrant, yellow flowers followed by small berries that attract birds. Picturesque when bare in winter. Grows anywhere, reaching a height of a small tree in some sections, or a large shrub in the North. 18-24 in., \$1.00 each; 3 for \$2.80. 12-18 in., 70c each; 3 for \$1.90, prepaid.

Andrews

COLORFUL SHRUBS

Tamarix

TAMARIX

A charming 5- to 7-ft. shrub with lacelike silvery blue foliage and large clusters of bright pink flowers giving a pink and silver mist effect. Outstanding. 2-3 ft., \$1.25 each; 3 for \$3.55. 18-24 in., \$1.00 each; 3 for \$2.80, prepaid.

CORALBERRY

Dwarf foundation shrub. The small red fruits are so thickly clustered that the branches droop under the load. Very graceful and attractive. 2-3 ft., \$1.00 each; 3 for \$2.80. 18-24 in., 85c each; 3 for \$2.35, prepaid.

ALPINE CURRANT

A gem of a dwarf shrub. Extremely rugged and hardy. The best shrub for shady areas. Very dense growing with fine, dark green leaves. Small fragrant yellow flowers are borne in May. Shrub grows to be 3 to 4 feet. 15-18 in., \$1.55 each; 3 for \$4.45. 12-15 in., \$1.20 each; 3 for \$3.40, prepaid.

ARROWWOOD (Viburnum Dentatum)

A very popular shrub. Deeply cut leaves and beautiful 3-inch white flowers make Arrowwood a perfect shrub border or for medium sized screens. Very hardy and not too particular as to soil conditions. 2-3 ft., \$1.50 each; 3 for \$4.20. 18-24 in., \$1.20 each; 3 for \$3.40, prepaid.

Arrowwood

DWARF NINEBARK

A new strain of Ninebark only 3 to 4 feet high that produces lovely white flowers in June. Reddish berries turn dark purple during summer. Fall coloring of foliage is brilliant red and yellow. Outstanding for specimen shrubs or hedges. 2-3 ft., \$1.25 each; 3 for \$3.55. 18-24 in., \$1.00 each; 3 for \$2.80, prepaid.

COTONEASTER

A very attractive shrub with glossy dark green leaves that turn a brilliant red in the fall. Stands shearing well and will do better than most in the shade. 2-3 ft., \$1.45 each; 3 for \$4.15. 18-24 in., \$1.15 each; 3 for \$3.15, prepaid.

JUNEBERRY

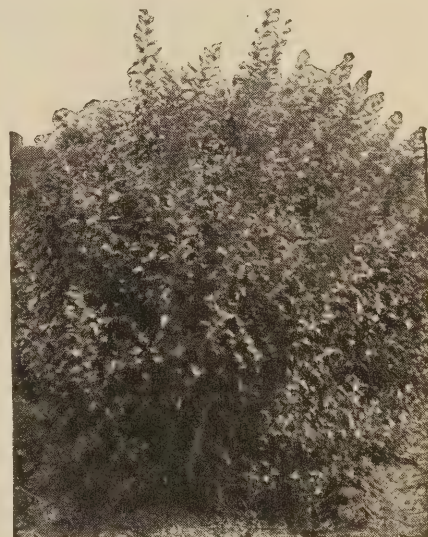

Fruit of the Juneberry resembles the blueberry although the bush will grow almost anywhere. Glossy green leaves make it an attractive shrub for the landscape. Fruit is good for jam, jelly, and pies. Very hardy. Plant at least two to insure fruit. 18-24 in., \$1.25 each; 3 for \$3.55. 12-18 in., \$1.00 each; 3 for \$2.80, prepaid.

Snowberry

SNOWBERRY

Beautiful rose-pink blossoms are followed by pearly white berries that will attract birds and cling well into winter. Does well in the shade and is small, attaining a height of only 3 to 4 feet. 2-3 ft., \$1.00 each; 3 for \$2.80. 18-24 in., 75c each; 3 for \$2.00, prepaid.

Dwarf Ninebark

Juneberry

GREEN BARBERRY

Well liked for foundation planting at the base of evergreens and for hedges (see page 19). Bright green foliage turns **bright red in autumn**. Very hardy and only about 3 feet tall. 18-24 in., 95c each; 3 for \$2.45. 15-18 in., 75c each; 3 for \$2.00, prepaid.

Red-Leaf Barberry

RED-TWIG DOGWOOD

A spreading shrub with **bright red bark** which adds a burst of color to your plantings in the winter. In summer it has bright green foliage and creamy white flowers. Grows to a height of 6 to 7 feet. Very hardy and does well in shade. 2-3 ft., \$1.35 each; 3 for \$3.85. 18-24 in., \$1.00 each; 3 for \$2.80, prepaid.

VARIEGATED DOGWOOD

One of the most attractive shrubs grown. The **dark red bark** is a winter attraction, while the **variegated green and white leaves** makes it one of the most unusual shrubs you can plant. 2-3 ft., \$2.45 each; 3 for \$6.95. 18-24 in., \$1.85 each; 3 for \$5.15. We pay the postage.

RED-LEAF BARBERRY

Planted in the sun, this colorful 2-ft. shrub has **bright red foliage** in spring and summer, deepening to a **dark crimson** in the fall. Its attractive red berries hang on all winter. Striking. 15-18 in., \$1.25 each; 3 for \$3.55. 12-15 in., \$1.00 each; 3 for \$2.80, prepaid.

SPIREAS

SPIREA Anthony Waterer

A popular dwarf shrub with **rosy red blooms** borne freely in July. Fine for low foundation plantings or in the foreground of the shrub border. 15-18 in., \$1.10 each; 3 for \$3.10. 12-15 in., 95c each; 3 for \$2.55, prepaid.

Spirea Billiardi

SPIREA Billiardi

A very delightful shrub of medium height and upright habit. Long **pink spikes** with a white fringe that gives it a frosty appearance distinguish the bloom. Excellent for both foundation and border planting. 2-3 ft., \$1.15 each; 3 for \$3.15. 18-24 in., 90c each; 3 for \$2.45, prepaid.

SPIREA Snowgarland

Smaller, and blooms earlier than Bridal Wreath. Just covered with white flowers when in bloom. **Orange-scarlet foliage** in fall makes it most impressive. 18-24 in., \$1.10 each; 3 for \$3.10. 12-18 in., 95c each; 3 for \$2.65, prepaid.

SPIREA Van Houttei (Bridal Wreath)

This graceful old favorite, a solid mass of white in spring, needs no introduction. Grows anywhere and reaches a height of 5 to 6 feet. 2-3 ft., \$1.00 each; 3 for \$2.80. 18-24 in., 85c each; 3 for \$2.35, prepaid.

SPIREA Froebeli

The Outstanding DWARF Spirea

This shrub is very popular where a low colorful plant is wanted such as under windows, or in front of tall evergreens by the doorway or corners of the house. **Bright, rosy red flowers** in flat clusters are produced in July and August. The foliage is very attractive, turning to a striking **purple-red** in the fall. Closely resembles Anthony Waterer Spirea, but is hardier, more colorful in autumn, and is very drought resistant. Grows anywhere. One of the finest and most popular border shrubs. 18-24 in., \$1.00 each; 3 for \$2.80, prepaid.

Variegated Dogwood

Spirea Froebeli

4 Great Shrubs

Honeysuckle, Zabeli

HONEYSUCKLE Zabeli

Strongest red flowers of all the honeysuckles! Red flowers in May are followed by **bright red berries** set off well by the deep green leaves. A beautiful shrub destined to replace the pink honeysuckles because of its colorfulness. Excellent as single shrub, or for screens and hedges. 2-3 ft., \$1.45 each; 3 for \$4.15. 18-24 in., \$1.20 each; 3 for \$3.35, prepaid.

HIGHBUSH CRANBERRY

Here's a handsome background shrub with attractive **bright red berries** that make a delicious, pleasantly tart jelly. Grows to 6 or 7 feet with slender, graceful, drooping branches. Has attractive single white flowers in May or June. The **large clusters of scarlet berries** will stay on into the winter. Berries can be used alone or in combination with other fruits. Beautiful, bright green foliage turns to rich red in autumn. 2-3 ft., \$1.50 each; 3 for \$4.30, prepaid.

to use
Nurish
when
planting

DWARF WINGED-BARK BURNING BUSH (Euonymus Alatus Compacta)

A new, dwarf, compact form of the regular Winged-Bark Burning Bush, growing to only about 5 feet. **Winged, cork-like branches**, small yellow flowers, borne in May-June, followed by red fruits and **vivid crimson autumn foliage**, distinguish this aristocrat of ornamental shrubs. Very hardy and truly an **outstanding new shrub**. 18-24 in., \$3.25 each. 15-18 in., \$2.85 each, prepaid.

Snowball

SNOWBALL

An outstanding shrub that is very well liked. The **huge white blooms**, resembling large snowballs account for the name. In leaf resembles the High Bush Cranberry, but does not carry the red berries. 18-24 in., \$1.35 each; 3 for \$3.85. 12-18 in., \$1.00 each; 3 for \$2.80, prepaid.

The Ever-Popular Highbush Cranberry

Dwarf Winged-Bark Burning Bush

HEDGES

for Beauty and Privacy

No one would fancy living in a goldfish bowl. That's why we plant hedges—low hedges in the front yard and tall hedges in the back yard or outdoor living room. We want privacy in our outdoor rooms just as we do inside. Hedges are the walls we use in our outdoor rooms.

For complete privacy in the back yard use the taller, fast growing kinds such as Honeysuckle or Chinese Hedgewood. For partial privacy in the front yard use the lower growing sorts: Dwarf Ninebark, Blue Leaf Hedge, Cotoneaster, or Barberry.

Dwarf Ninebark

LOW or DWARF HEDGES

DWARF BLUE LEAF HEDGE

A striking new, **silvery blue-green** hedge plant that is very hardy. As unusual as it is beautiful, we know that you will love this charming plant. If left untrimmed its feathery willowy foliage makes a beautiful informal hedge 3 to 4 feet tall and 2 to 3 feet wide. Trimmed, it makes a colorful, low, formal hedge. Just the thing for low edgings around beds or walks. See page 14 for single specimens. Plant 12 inches apart.

Five Famous CUSHION MUMS

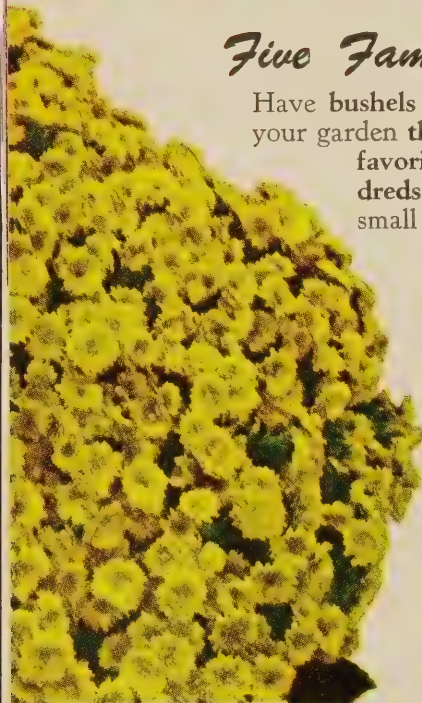

Have bushels and bushels of gorgeous mums to glorify your garden this fall. These lovely cushion mums in five favorite colors will amaze you with their hundreds of brilliant long lasting blooms. Plants are small and can be planted in front of shrubs or evergreens around the house or, if given a place in your garden, will provide a brilliant autumn show at a time when most everything else is through. If plants are set 18 inches apart, the ground will be completely covered in a sea of bloom by autumn.

A Hardy Crimson CARNATION

The gay and jaunty carnation is one of the nicest perennials we have. They make good border plants and the crisp, bright flowers are excellent for bouquets or for wearing in the lapel. Set plants 12 inches apart and mulch lightly during the winter. Each 60c; 3 for \$1.50; 5 for \$2.00; 10 for \$3.55. We pay the Postage.

Hardy PRIMROSE

(Primula veris)

Add a wealth of color to your garden in early spring with this lovely little perennial that likes the shady spots. Blooms in early spring. Should be planted under overhanging branches of tall shrubs, in rock gardens, or wherever it will get early spring sun, but will be protected from the hot summer sun. Blooms profusely in a variety of colors. Each 60c; 3 for \$1.50; 5 for \$2.00; 10 for \$3.55. We pay the Postage.

High Light Your Garden with these PERENNIALS

BLEEDING HEART, *Spectabilis*. The old favorite. Perfectly hardy. Each 75c; 3 for \$1.85. We pay the Postage.

SHIPPING TIME

Perennials cannot be sent as early as dormant trees and shrubs because of possible damage. Therefore, if you order both trees or shrubs and perennials from pages 20 and 21, the perennials will be sent separately, as soon as it is safe to plant them.

MORDEN *Pink* LYTHRUM

A sight to behold. Graceful spikes are covered almost from the ground to their 3-4 ft. tips with deep pink flowers. Makes an excellent hedge or background for other perennials. Blooms all summer. Absolutely hardy—will grow anywhere. Each 60c; 3 for \$1.50; 5 for \$2.00. We pay the Postage.

On orders for perennials alone, of less than \$1.50, we ask that you add 15c to help defray the cost of handling.

PINK

BEAUTY'S BLUSH. A sparkling frosty white overlaid by a cool rose-pink with just a touch of cream in the throat. Seven to nine florets open at once on very tall spikes. One of the very best. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

TREASURE ISLAND. A light salmon-pink opening 6 or 7 blooms on huge flower heads. A very good variety. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

CREAM

WHITE GOLD. Has a giant spike with six to eight enormous slightly ruffled flowers of triangular shape, opening at once. Creamy white with a golden throat. An early bloomer and a good grower. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

Margaret Beaton

Northern Grown

RED

BLACK OPAL. A fine, tall, deep maroon to black Glad that opens nine to ten round florets on long spikes. Contrasts with white beautifully. Midseason. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

KENWOOD. A very large, pure red. The tall spikes carry a generous number of florets. We believe Kenwood is one of the best reds. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

VALERIA. A soft scarlet-red, with tall, handsome spikes. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45.

BURMA. One of the greatest reds. Flowers are very ruffled. Becoming very popular. To see it is to love it. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

LAVENDER

ELIZABETH THE QUEEN. New, and a best seller. Flowers are large, exquisite mauve, and beautifully ruffled, with darker lines in the throat. Open seven to eight blooms at a time. Makes a fine garden variety. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

POET'S DREAM. A beautiful lavender pastel with an ivory throat. The waxy texture of the petals makes it a most attractive glad. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

COLOR GLAD COLLECTION

Five each of the eight lovely glads pictured. All Top Size No. 1 bulbs—doubly guaranteed.

40 Bulbs for Only \$3.85

2 Collections (80 Bulbs) Only \$6.95.

We pay the Postage.

Brilliant Flowering Crab

Flowering Crab Tree Collection

1 Almey. 4-5 ft.

1 Hopa. 4-5 ft.

(Regular Value \$5.70)

All 3 for Only \$5.35

We pay the Postage

The real coming of spring is heralded by the gorgeous Flowering Crab trees as they spill their clouds of red and pink blooms onto the landscape to signal the passing of winter and the coming of another glorious spring. Flowering crab trees are not only breathtaking in their spring dress, but very serviceable as small shade trees . . . And now we have an entirely new type—a pyramidal Flowering Crab—that can be used for screens or corner plantings.

Dress up your home grounds by planting some gay Flowering Crab trees this spring.

RED SILVER

This unusual tree gets its name from the color of its leaves. They are a deep red or maroon—all summer, with somewhat of a silvering on the underneath side. The blooms are a deep red. A very colorful accent tree. 5-6 ft., \$2.85 each; 2 for \$5.35. 4-5 ft., \$2.35 each; 2 for \$4.35. We pay the Postage.

KLEHM'S IMPROVED BECTHEL'S

This lovely flowering tree is greatly underrated—but not by those who have seen it. The branches are literally hidden by a spectacular display of delicate double pink flowers that look like miniature roses. The only double flowering crab tree that we have. Ideal for the smaller yard. An improved form of the old favorite Becthel's Flowering Crab. 5-6 ft., \$3.85 each; 2 for \$7.35. 4-5 ft., \$3.25 each; 2 for \$6.15. We pay the Postage.

HOPA

Blood-red buds are followed by a mass of fragrant deep rose-colored blossoms. The leaves are first a reddish purple, then a bright rich green. Truly a striking tree. 5-6 ft., \$2.85 each; 2 for \$5.35. 4-5 ft., \$2.35 each; 2 for \$4.35. We pay the Postage.

Hopa

Fiery Crimson ALMEY

In all our 81 years in the nursery business, we have never seen as sensational a Flowering Crab tree as Almey; nor have we ever seen a new introduction live up, so completely, to all its early promises.

Almey has huge dollar size blooms of a rich glistening, fiery crimson. Each petal has at its base, pure white markings that give the blossom the appearance of a five-sided star surrounded by crimson. From a distance, however, this is not apparent and the tree looks as though it were a mass of flame.

Although not a large tree—about 12 to 15 feet—Almey is vigorous and attains its mature height quite rapidly. Another outstanding characteristic of Almey is that it blooms young. Every spring in the nursery the little trees—a year before they are large enough to sell—are in full boom. While we hesitate to say that Almey will

Crab Trees mean Spring

The Exciting NEW Pyramidal Flowering CRAB TREES

An entirely new type of Flowering Crab tree has all of us here at the nursery very excited. It is a type that grows in the general shape of a Lombardy Poplar, hence, we refer to them as "Pyramidal Flowering Crabs." We first saw specimens of this new type in Canada and were enthralled by their beauty and unusual outlines. It required little imagination to visualize their tremendous potential usefulness as a replacement for the Lombardy Poplar as a tree to use for screening off undesirable sights, to plant as a background on the side or back of a lot, as corner plantings for the home, or for specimen ornamental trees in a small yard. We predict that it will be just a few years before they will have replaced the Lombardy Poplar as they are superior in many ways. They are smaller, although tall enough to be a good screen (10 to 15 ft.); they are **longer lived** by far and last but not least, their beauty places them in a class by themselves. A row of these trees, when in full bloom from top to bottom almost defies description and will make spring your most treasured season. Two of our best pyramidal Flowering Crabs are M. R. 454 and Strathmore.

Outline of the
Pyramidal Flowering
Crab Apples

America's Most Sensational Flowering Crab

bloom the year you plant it, as the shock of transplanting is a lot to overcome and still flower—yet many of our customers have written telling us how happy they were when their Almey bloomed a few weeks after they planted it.

The spring show is not all. A graceful tree in growth, Almey also produces in profusion small **scarlet** fruits that are unique in their habit of clinging tenaciously to the branches long after the leaves have dropped, providing another **high spot** of color long into the winter.

We know you'll like Almey—so don't be without it any longer. Plant some this spring.

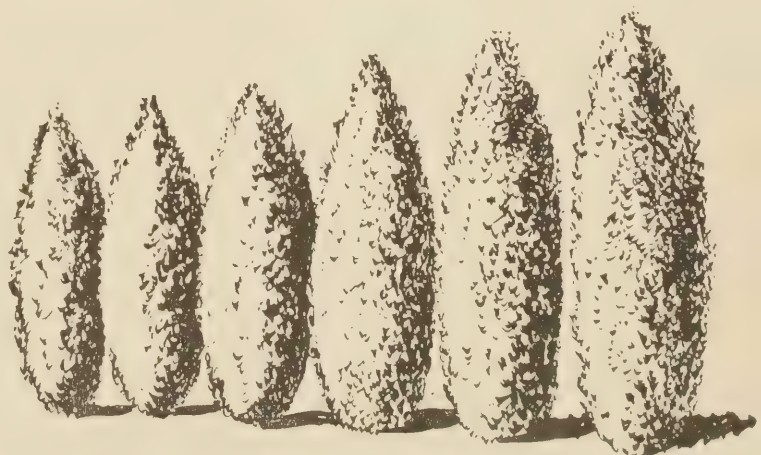

5-6 ft., \$3.95 each; 2 for \$7.65. 4-5 ft., \$3.35 each; 2 for \$6.35. 3-4 ft., \$2.65 each; 2 for \$5.00. We pay the Postage.

M. R. 454

The buds of M. R. 454 are a deep blood-red, opening late to rosy flowers that fade to a clear pink. The tree is literally **smothered in bloom**. It would be excellent even if it were not pyramidal in shape. 4-5 ft., \$3.35 each; 2 for \$6.35. 3-4 ft., \$2.65 each; 2 for \$5.00. We pay the Postage.

STRATHMORE

We like **Strathmore** for its foliage as well as for its habit of growth. The leaves **remain reddish** all summer and turn strikingly red and scarlet in autumn. The flowers resemble those of Hopa but are somewhat darker. 4-5 ft., \$3.35 each; 2 for \$6.35. 3-4 ft., \$2.65 each; 2 for \$5.00. We pay the Postage.

The New Pyramidal Flowering Crabs are a
New and Excellent Way of Screening

Modern Shade

The Maples

MAPLE, Schwedler

A beautiful tree; ideal for color accents in spring and fall. Its crimson leaves in spring contrast with the usual vivid greens. Gradually the colors soften to bronze-green in summer; then to a deeper waxen green. Has the same round, symmetrical shape as its parent, the Norway Maple. A long-lived hardy tree that will enrich your home landscape.

	Each	2 for
7-8 ft. whips	\$4.85	\$9.45
6-7 ft. whips	4.35	8.45

MAPLE, Hard

One of the finest and most colorful of all the Maples—a beautiful shade or boulevard tree. Brilliant yellow-orange or scarlet foliage in fall. A tall, stately, sturdy tree, compact, graceful. Grows well North or South.

	Each	2 for
6-8 ft.	\$5.25	\$10.25
5-6 ft.	4.25	8.25

MAPLE, Norway

Very popular because of its pleasing familiar dome-shaped head densely covered with beautiful dark green foliage. Lovely autumn foliage of rich yellow and orange hangs on the tree 2 weeks longer than on any other Maple. Well adapted to city conditions. Fine for street or lawn planting.

	Each	2 for
7-8 ft. whips	\$2.65	\$5.00
6-7 ft. whips	2.35	4.45

MAPLE, Soft or Silver

Not as pretty in the fall as the other Maples, but has attractive summer foliage and is one of the fastest growing shade trees.

	Each	2 for
8-10 ft.	\$4.65	\$9.00
6-8 ft.	3.45	6.65
5-6 ft.	2.25	4.25

Bolleana Poplar

MAPLE, Crimson King (Pictured Above)

A brilliant new tree is the **Crimson King** Maple. It is a crimson form of the Schwedler Maple, originated in Europe. It is brilliant crimson all through the summer months. Under observation since its introduction into America over 10 years ago, it has held its vivid coloring all through the season. Perfectly hardy. For color accent all summer long, **Crimson King** cannot be beaten. Brighten your yard by planting one or two this spring. Pat. No. 735. 5-6 ft. whips, \$4.95 each; 2 for \$9.65.

The Birches

These delightful trees are not valued as much for shade as they are for their gracefulness. Outstanding for accent points, their comparatively small size makes them usable in almost any yard.

BIRCH, White. A beautiful tree for your lawn. Has slender, graceful branches, deep green foliage, and paper-white bark. In the fall the leaves turn an attractive yellow. Summer or winter it contrasts effectively in clumps near or among evergreens.

	Each	2 for
6-8 ft.	\$3.85	\$7.45
5-6 ft.	2.85	5.45
2 ft. and up	3 for \$1.00	

BIRCH, Weeping Cut-Leaf. You'll find grace, charm and beauty combined in this popular tree. Has silvery white bark, graceful drooping branches, and small, finely cut leaves. Emphasizes the compact lines of evergreens. Grows best in moist locations. Very attractive when planted in groups of two or three.

	Each	2 for
7-8 ft.	\$6.25	\$12.25
5-6 ft.	5.25	10.25

The Poplars

The Poplars have been steadily growing in popularity. Excellent for tall screens and accent points. Can be used on corners of tall houses, and to line driveways for farm homes.

POPLAR, Lombardy. Tall, stately landscape tree for accent points, quick screens, backgrounds and driveways. Very picturesque and very useful. Has glossy leaves that shimmer in the sunlight. Branches grow close to trunk and upright to form a tall, slim column. Fast growing and hardy.

	Each	2 for
8-10 ft.	\$1.45	\$2.65
6-8 ft.	1.25	2.25
5-6 ft.	1.00	1.75

POPLAR, Bolleana. (Silver-Leaved.) Beautiful landscape tree that resembles the Lombardy Poplar in shape, but is hardier and longer lived. Has deeply lobed leaves with a white facing that gives a delightful silver flash in the breeze.

	Each	2 for
6-8 ft.	\$2.85	\$5.45
5-6 ft.	2.40	4.55

Trees for Modern Homes

**Sensational
NEW!** *Moraine Locust*

= Fast Growing - Long Lived - Seedless =

The MORaine LOCUST is the shade tree that couldn't be much better if it was specifically bred for the needs of today. For the many new homes that have no shade whatsoever, the MORaine LOCUST will provide shade quicker than any tree we know of. Yet, the MORaine is a good tree—long-lived, drought resistant, and will grow on any soil.

The MORaine LOCUST is TODAY'S shade tree because of the following features:

1. **SEEDLESS.** Unlike other locusts, the Moraine is sterile, thus there are no unsightly seed pods to clean up in the fall. Non-fruiting habit permits better foliage.
2. **GROWS ANYWHERE.** Seems to produce good growth on any kind of soil, but responds favorably to extra feeding.
3. **LONG-LIVED.** A common honey locust recently cut down in Ohio, proved to be 327 years old. There is every reason to believe that the MORaine LOCUST, too, will be a long-lived tree.
4. **HARDY.** Common honey locust is native from New York to Minnesota and from Texas to Ontario. The Minnesota Horticultural Extension Department recommends it throughout the southern half of Minnesota. The MORaine Locust should withstand the same extremes in temperature.
5. **BENEFICIAL EFFECT ON LAWNS.** Due to good shape of the tree and the fine foliage, enough light filters through to permit growth of excellent lawns, but adequate shade to prevent growth of crab grass.

We know of no other shade tree that possesses the many fine features of the MORaine LOCUST. It more adequately fills the needs of today than any other tree. For shade in a hurry, plant MORaine LOCUST. But order early as supply is limited this year.

	Each	2 for
5-6 ft. whips	\$5.00	\$9.75

Cut-Leaf Weeping Birch

Moraine Locust

ASH, Green

One of the best shade trees, very clean, symmetrical, drought resistant and long-lived. Green Ash grows under the most severe conditions. Excellent in the shelterbelt, too.

	Each	2 for
6-8 ft.	\$2.95	\$5.65
5-6 ft.	2.45	4.65

ELM, American (Grafted)

America's most popular shade tree. Large and spreading, it combines strength and grace. One of the best lawn or park trees—majestic, hardy, permanent. These are grafted Elm selected for their uniformity, good shape, and faster growing habit.

	Each	2 for
8-10 ft.	\$4.75	\$9.25
6-8 ft.	3.75	7.25

ELM, Chinese

A hardy Siberian strain that grows fast even in poor soils. However, the Chinese Elm is not a good shade tree, and with the recent introduction of the Moraine Locust, the need for fast growing trees—yet good trees—can now be satisfied.

	Each	2 for
6-8 ft.	\$2.75	\$5.25
5-6 ft.	1.85	3.45

LINDEN, American (Basswood)

A beautiful specimen tree with a round, compact top; large, heart-shaped leaves that give dense shade.

	Each	2 for
6-8 ft.	\$4.95	\$9.65
5-6 ft.	3.45	6.65

MOUNTAIN ASH

A beautiful semi-dwarf specimen tree with creamy white flowers followed by clusters of orange-red berries.

	Each	2 for
6-8 ft.	\$5.65	\$11.00
5-6 ft.	4.35	8.45

WILLOW, Niobe Weeping

A graceful weeping tree for lawn or beside a rock wall. Has golden yellow bark, narrow green leaves, silvery beneath and long drooping branches.

	Each	2 for
8-10 ft.	\$2.85	\$5.45
6-8 ft.	2.35	4.45

Jackmani Clematis

CLEMATIS COLLECTION

Two excellent varieties that are very popular all over the country.

1 Jackmani 1 Andre
Both for Only \$3.00.
We pay the Postage.

Andrews

VINES

for Summer Charm

CLEMATIS

A favorite of almost everyone. Easier to grow than most people think, they are one of the most outstanding vines when they begin to pour forth their hundreds and hundreds of vivid flowers. They bloom all summer long. Complete directions for their easy culture accompanies every order. Prices: \$1.75 each; 2 for \$3.25. We pay the Postage.

JACKMANI. The most popular of all the large-flowering Clematis. Large velvety violet-purple flowers. Grows rapidly through the summer and early autumn.

HENRYI. The huge white flowers of Henryi often measure 8 inches across. A vigorous grower, often getting 8 feet high.

ANDRE. A gorgeous glowing red. One of our best liked Clematis.

RAMONA. Soft delicate blue flowers that are large and borne heavily. A very good variety.

VEILLARD. One of the very best growers. Veillard produces hundreds and hundreds of gorgeous lilac-rose flowers. The color is more intense in cool weather. Veillard is a real producer.

BITTERSWEET. Grow winter bouquets of Bittersweet on your own back fence or arbor. June blooms are followed by attractive orange-red berries. Plant two or more for cross-pollination. Makes fine late fall and winter bouquets. This popular native vine has bright, glossy foliage, too. Makes a fine decoration for the summer-house if given a little help in climbing. Grows in any soil; in sun or partial shade. Very hardy. 2-yr. select vines: each 85c; 2 for \$1.55. We pay the Postage.

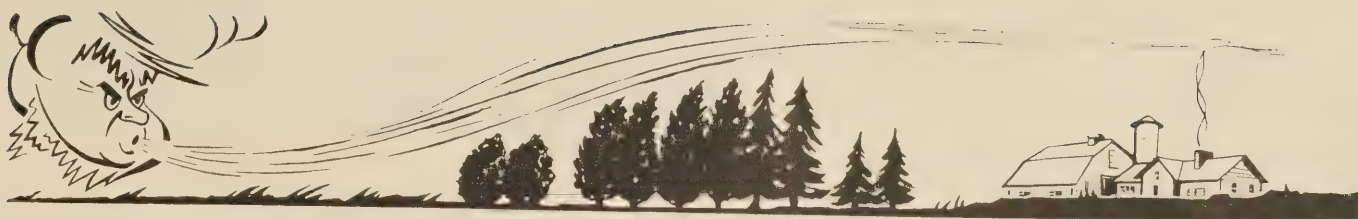

ENGELMANN IVY. You'll be surprised how rapidly this grows and how well it clings. Covers stone, brick or stucco walls without support. A handsome 5-leaved ivy with extra thick, green foliage which turns a brilliant, rich red in autumn. Thrives well in sunshine or shade. 2-yr., select vines: 95c each; 2 for \$1.75. We pay the Postage.

GOLDFLAME HONEYSUCKLE

A delightful new vine with immense clusters of large, fragrant flame-coral trumpets lined with creamy gold. Blooms abundantly from May until frost, reaching its full glory in early summer. The dark, glossy, blue-green leaves make a perfect background for the brilliant flowers. Goldflame can be clipped to form a neat hedge, pruned to make a striking specimen shrub, or allowed to grow naturally to climb a trellis, or spread as a ground cover. Very hardy and easy to grow. 2-yr. select vines: \$1.35 each; 2 for \$2.45. We pay the Postage.

Goldflame Honeysuckle

Farmers! Save FEED, FUEL—and lots of back - breaking shoveling with an ANDREWS PLANNED Farmstead Shelterbelt.

Are you tired of plowing through snow to get to the barn? Are you tired of shoveling and shoveling to get your car out of the yard after a heavy snow that has blown and drifted all night? You don't have to, you know. Farmers who have an **ANDREWS PLANNED farmstead shelterbelt** tell us they wouldn't sell it for 10 times what it cost. **More beef, more milk, more eggs** are produced too, when your feed lots and barns are protected from the wind. **Farmstead shelterbelts** are not really an expense, but an **investment** that will make your life more pleasant and your stock more productive. Use our **FREE Shelterbelt planning service**. Tell us how much space you have or how many rows (and length of inside one) you want and we will design a shelterbelt with no obligation to you. It's a service we can give and we want you to have it.

We Pay Postage On All Windbreak Stock Except Evergreens

GREEN ASH. Very dependable for shelterbelt or woodlot—will grow on almost any soil. Fast growing, long lived, excellent for lumber or fence posts. A hardy Dakota strain that is dense, durable and drought resistant.

	25	50	100	200
2- 3 ft.	\$2.25	\$4.35	\$7.85	\$14.85
18-24 in.	1.65	3.15	5.45	10.35
12-18 in.	1.35	2.55	4.45	8.45

AMERICAN ELM. Selected, hardy, upland strain recommended by the Conservation Department for shelterbelts and woodlots. Grows on any soil. Beautiful; long-lived; drought resistant.

	25	50	100	200
2- 3 ft.	\$1.90	\$3.65	\$6.45	\$12.25
18-24 in.	1.65	3.15	5.45	10.35
12-18 in.	1.35	2.55	4.45	8.45

CHINESE ELM. Hardy Siberian strain that grows rapidly even on poor soil. Thick, compact branches from the ground up stop the sweep of wind and drifting snows as well as dust storms. Makes a fine windbreak in 3 or 4 years.

	25	50	100	200
2- 3 ft.	\$2.65	\$5.15	\$9.45	\$17.95
18-24 in.	1.98	3.85	6.85	12.95
12-18 in.	1.50	2.85	4.85	9.25

SOFT MAPLE. (Silver Maple.) Makes a fast growing shelterbelt for your farm, especially on good soil. Has fine, silvery blue-green foliage.

	25	50	100	200
3- 4 ft.	\$3.95	\$7.65	\$14.35	\$27.25
2- 3 ft.	2.55	4.85	9.00	17.10
18-24 in.	1.90	3.65	6.45	12.25

RUSSIAN GOLDEN WILLOW. This hardy, fast growing Willow has an attractive bright yellow bark. In mass plantings they are very colorful especially in winter. Provides a crop of firewood in a hurry, too.

	25	50	100	200
3- 4 ft.	\$3.85	\$7.45	\$13.95	\$26.35
2- 3 ft.	3.25	6.15	11.35	21.55
18-24 in.	2.75	5.15	9.35	17.85

LAUREL LEAF WILLOW. Branches provide dense, glossy, dark green foliage from the ground up—ideal for two outside rows of the shelterbelt as a snow catch. Leaves stay on late in the fall for added protection. Planted 3 feet apart and 60 to 100 feet from roadway. **Laurel Leaf** makes a beautiful addition to the landscape over the years. It also provides a natural and inexpensive snow fence.

	25	50	100	200
3- 4 ft.	\$3.85	\$7.45	\$13.95	\$26.35
2- 3 ft.	3.25	6.15	11.35	21.55
18-24 in.	2.75	5.15	9.35	17.85

RUSSIAN OLIVE. The beautiful silver-leaved tree—a fine ornamental as well as an excellent shelterbelt tree. Branches, from the ground up, make it useful for the "snow catch" rows of the shelterbelt. Has fragrant yellow flowers followed by berries attractive to birds.

	25	50	100	200
12-18 in.	\$2.55	\$4.85	\$8.85	\$16.85

NORWAY POPLAR. Outstanding for shelterbelts because of its hardiness and rapid growth. Grows on any soil; begins giving protection the second year after planting; makes posts and lumber too.

	25	50	100	200
3-4 ft.	\$4.85	\$9.45	\$17.95	\$34.15
2-3 ft.	3.85	7.45	13.95	26.35
18-24 in.	3.15	6.15	11.35	21.55

BLACK WALNUT. This is a hardy strain of the Minnesota Black Walnut that is easy to grow and fine for shelterbelts. The delicious nuts produced are excellent in cooking. **Black Walnut logs** are extremely valuable for their quality lumber.

	25	50	100	200
12-18 in.	\$2.55	\$4.85	\$8.85	\$16.85

VILLOSA LILAC. An extremely tough, durable yet beautiful plant. Branches heavily from the ground up and is a rapid, thrifty grower. Beautiful when in bloom. Recommended for snow catch rows of shelterbelts.

	25	50	100	200
18-24 in.	\$3.95	\$7.65	\$14.35	\$27.25
12-18 in.	2.75	5.15	9.35	17.65

AMERICAN ARBOR-VITAE. (For Shelterbelt and Hedging.) This popular thick, compact evergreen makes an excellent windbreak, snow stopper, or year-around hedge or screen. Its large, flat dense branches hugging the ground make it useful for the inside row or two of the windbreak. Does best in fairly moist soil.

	10	25	50	100
4-yr. trees, 8-12 in.	\$3.00	\$6.25	\$11.85	\$22.65

Not Prepaid

WHITE SPRUCE. This tree might be considered our most common native Spruce. It thrives in all northern climates from the Arctic Circle to central U. S. A. Foliage is bluish green to bluish coloring. A compact, regular growing tree of conical shape. Very attractive even when small. Maximum height 50 feet. Thrives even in hot, dry climates. Besides its value as an ornamental tree, windbreak, background tree or screen, it makes an excellent hedge.

	10	25	50	100
4-yr. trees, 8-12 in.	\$3.00	\$6.25	\$11.85	\$22.65

Summer Varieties

ORIOLE ★★ ★

When August rolls around do you crave a nice juicy apple? Then **Oriole** is for you. The **earliest** high quality apple we know. Good for pies, too. For that first apple, **crisp, juicy Oriole** is it. Very hardy.

MANTET

The Dominion Experiment Station at Morden, Manitoba, Canada, gives us this one. **Mantet** has exceptional quality. Ripens in August, and is an attractive, **solid red apple**. Try it for making sauce with the skin on. It's as beautiful as it is delicious.

BEACON ★★ ★

Ripening in early September, **Beacon** is a **stop light**. Having been featured for several years at the Minnesota State Fair, it has crowded all other apples into the background. For early September **All-Red Beacon** is the **King of the Market**.

Fall Varieties

LAKELAND ★★ ★

Here is a new apple that just can't miss. A bit later than **Wealthy** it is better on every count. Color is excellent—an all-over bright red. **Quality is high**, and best of all it's an **annual bearer**, which means that you get apples **every year** instead of more than you can use one year and none the next. A **sure winner**.

VICTORY ★★ ★

To say that **Victory** is an improved **McIntosh** is probably enough to recommend it. Excellent for eating, sauce, and salads.

Victory

Oriole

Fireside

Apples for Every Need Northern Rooted" Trees

of the Minnesota Fruit Breeding Farm

MINJON ★★★

Minjon is similar to Jonathan, but ripens earlier and is much harder. Large, and with a brilliant dark red color, Minjon is growing in popularity every year.

Winter Varieties

REDWELL ★★★

Redwell is solid red in color and uniform in size. An annual bearer, this is one of the best apples for both home and commercial orchards. Extremely hardy.

PRAIRIE SPY ★★★

This is one of our favorites. A "dual-purpose" apple, it is very good for both eating and cooking. Its unusual, almost nutlike flavor sets it apart from all other apples and will make your friends frequent visitors at picking time. Will keep all winter. Don't be without Prairie Spy—it's unusual.

FIRESIDE ★★★

For just plain mouth-watering quality, Fireside is tops. For eating fresh, it will make you forget Delicious. Crisp, juicy and sweet, it will keep all winter, unless, of course, you have too many apple loving boys in the family.

Oriole Collection

If you have room for only 3 trees—this is an excellent collection. Three of the finest Apples you could plant, this group will give you Apples for both eating and cooking over a long season.

Summer Varieties

ANOKA

A summer apple that bears younger than any other we know of—often the second year after planting.

RED VAN BUREN

Similar to Duchess, but superior in both color and quality. Ripens in early September. A beautiful apple and one of the best early ones for pie.

Fall Varieties

CORTLAND

The crisp snow-white flesh distinguishes Cortland as an outstanding apple for dessert purposes. Unexcelled for salads, its fine flavor and texture makes it a choice apple for eating and sauce during the fall and early winter.

HIBERNAL

An extremely hardy tree with perfect branching for topworking. Fruit is not high in quality but will produce anywhere.

WEALTHY

Probably the best known apple throughout the Upper Midwest. A bright attractive red over most of its surface, its sprightly flavor and juiciness has made it a favorite for years and years. Wonderful for sauce and pies. Ripens in late September, but can be used green soon after Labor Day.

Suggestions for Planting Fruit Trees

While Apple trees are good growers and will do well in most any soil that isn't too sandy, it helps to feed them well at planting time, and throughout the first half of the year planted. A good start is important. We recommend the use of **Nurish**, a completely balanced plant food. You will find Nurish described on the back side of the order blank.

Red Van Buren

Chestnut
Crab

All Season APPLE COLLECTION

We offer here an ideal Home Orchard selection. This group will provide you with a constant supply of the highest quality apples from August well into the following year.

Winter Varieties

HARALSON ★★★

Haralson is one of the truly great apples. There are now more Haralson grown in Minnesota than any other apple. A large, red, solid, long keeping winter apple; it is prized chiefly for its exceptional cooking qualities. Apple pie and Haralson are practically synonymous. It is our number 1 choice—we've never known a better pie apple. Those who like a hard, crisp, juicy apple, a little on the tart side—and there are many—swear by Haralson for eating. Haralson bears young and heavily. It is a tree that thrives in difficult places and is extremely hardy.

NORTHWESTERN GREENING

Another old-time favorite. The very large apples are green when picked but turn to a very attractive pale yellow as they mature. Good for cooking—and its keeping qualities are unexcelled.

Crab Apples

CHESTNUT ★★★

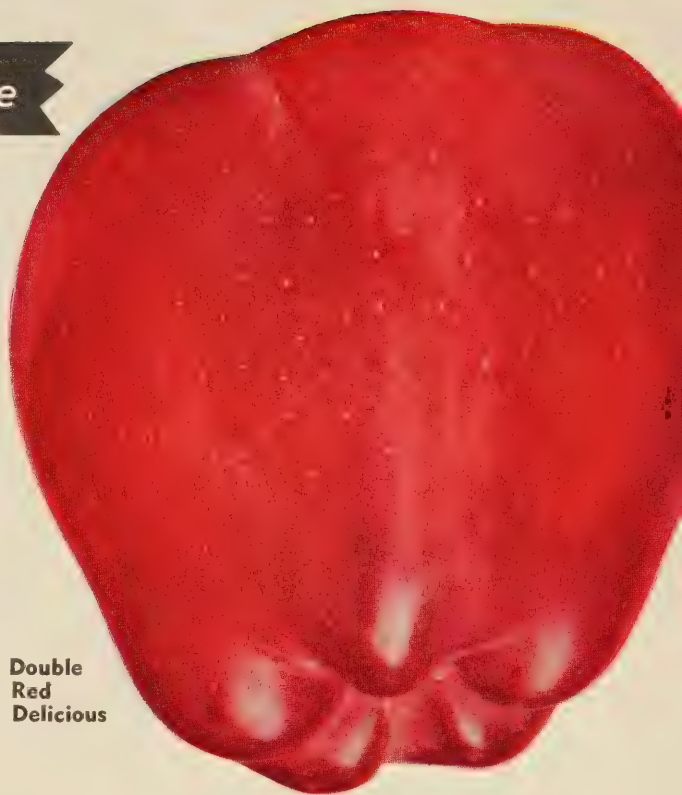

Chestnut is a favorite with children. It has excellent eating quality, and its large size would almost classify it as a small apple. It is especially good in school lunches as it ripens in early September but keeps into November. Very good for pickling and sauce—and comes at a time when it's easier for Mom to do it. We think that bronze-red, crisp and juicy Chestnut is the best crab of its type.

DOLGO

This bright fiery red crab is the best yet for jelly. High in pectin, it can be mixed with other fruits as well as used alone.

WHITNEY

This old favorite is still widely planted. Everybody likes it—and it's early, ripening in August.

Double
Red
Delicious

DOUBLE RED DELICIOUS

America's best known apple. A beautiful red, sweet winter eating apple. High quality. Recommended in Southeastern Minnesota and warmer regions.

Haralson

Wealthy

Beacon—See page 30

SCHOOLBOY Collection

This group is made up of kinds we have found to be particularly well liked by children for eating. You'll note, however, they have other uses, making it a very practical selection to plant.

From the Fruit Breeding Farm of the
University of Minnesota, Comes

2 Great New Pie

PROF. W. H. ALDERMAN
Chief
Division of Horticulture
University of Minnesota

Since its inception, over 40 years ago, the Minnesota Fruit Breeding Farm, a part of the University of Minnesota, has wrought a great change upon the horticulture of the Upper Midwest and upon the very lives of everyone living within this region. Its fruit breeding program has been so intense and productive, that it is rated among the leading Fruit Breeding Stations of the Nation. Many of the new fruits developed by the Minnesota Station have gone far afield and are now planted widely throughout the entire country.

A few of the new fruits that have contributed so much to horticultural standards are the Latham and Chief Red Raspberries, the Red Lake Currant, a new race of Apples that has revolutionized the Apple growing of this area, and a new type of hybrid Plum that has given this area Plums equal in size and quality to West Coast Plums.

Directing the Fruit Breeding Farm through the critical years of selection, testing and evaluation—all the time making more crosses—has been Prof. W. H. Alderman, Chief of the Division of Horticulture, aided by an outstanding staff at the Fruit Breeding Farm. Prof. Alderman must be considered one of the country's most outstanding horticulturists. It will be a great loss to Minnesota and the entire region when he retires from active duty in July, 1953.

However, we feel that if a man ever left his work while at his very peak, Prof. Alderman will be doing that very thing. We feel that the two last introductions of the Minnesota Fruit Breeding Farm under his direction, are two of the most important they have made. Not just improvements upon existing fruits, they are two varieties of a fruit heretofore too tender to be grown in this area. **Northstar** and **Meteor** are pie Cherries—something we have not had before. Although hardy enough to be grown in this area, they have even more—**their quality is so extremely high** that we are certain they will be widely planted throughout the entire Nation in the years ahead.

Being intensely interested in horticulture, we here at Andrews Nursery wish to express our appreciation to Prof. Alderman and his excellent staff for their very great contribution to the horticulture of this region.

METEOR

Meteor (Minn. No. 66)

A BRILLIANT, NEW PIE CHERRY

In 1935 the Minnesota Fruit Breeding Farm crossed the well known Montmorency Cherry with a very hardy, small fruited unnamed Cherry they secured from the Canadian Experimental Station at Morden, Manitoba. This unnamed Cherry was a product of repeated selections of Russian strains and probably represents the hardiest Cherry stock available. The result was a seedling designated as Minnesota No. 66.

In December, 1952, seventeen years after the cross was made and after years of testing, the University of Minnesota introduced Minn. No. 66 under the name of **Meteor**.

In introducing Meteor, they have the following to say in describing their new Cherry. "The tree is a **strong and vigorous grower** with an upright, moderately spreading habit. The unusually large leaves produce a dense and luxuriant foliage that is resistant to leaf spot. The fruit is large to very large. The fruit color is a very attractive clear light red; the skin is thin and tender. The flavor is a pleasant mild acid and **quality is very good**. The stone is small, long oval, and **very free**. The fruit ripens about 10 days to 2 weeks later than Northstar, or about midseason in relation to standard varieties of Sour Cherries.

This is the first year that we have had Meteor and the supply is very limited.

Cherries

NORTHSTAR

**A New, Mouth Watering
Pie Cherry—Large, Luscious
Fruit on Small Sized Trees**

Introduced a year earlier than Meteor (1951), Northstar was the first true pie cherry to be introduced by the Minnesota Fruit Breeding Farm. The name given it seems appropriate since Minnesota is known as the North Star State. This cherry will no doubt succeed farther north than any other cherry of equal size and quality except Meteor, which we believe can be planted right along with it.

A little different breeding has gone into Northstar. Whereas Meteor has Montmorency blood, Northstar is a cross between a tough, hardy Serbian pie cherry and the regular English Morello cherry. The gain in this cross has been twofold—as Northstar is not only much hardier than the English Morello, but is far superior to its parent in quality. Both its parents being smaller than Montmorency in tree size, there is every indication that Northstar will be a relatively small tree—an important feature where limited space is a factor.

Official Description

The following is taken from an article by Prof. T. S. Weir in the *Minnesota Horticulturist* (January 1951) when the official announcement of Northstar was made.

"THE NORTHSTAR is a Morello type sour or pie cherry. The color is at first a bright red, but at maturity it changes to a dark glistening mahogany-red; the skin is medium tender and the flesh is juicy, tender and meaty; the flavor is pleasantly acid and the quality good. The stone is small and is easily removed.

"The ripening season begins very early; about July 5 to 10 at the Fruit Breeding Farm (a few miles west of Minneapolis). The fruit will remain on the tree in good condition for about two weeks.

"The tree is small but productive and is self-fertile. It is resistant to leaf spot and apparently to brown rot diseases. It should be a valuable addition to the home garden for its beauty as well as its fruit. There are good possibilities of its succeeding as a Commercial variety."

Northstar and Meteor—a Perfect Pair

Ripening about 2 weeks apart, you will have tree fresh cherries over a very long season. Plant some of each this spring—you'll have the best pie cherries that can be grown.

PRICES OF NORTHSTAR

Northstar

"flavor was the finest I have ever tasted"

The superb quality of Northstar is aptly described by Mrs. Walter Montfort who has spent most of her life in the heart of the fruit belt in Michigan. She writes:

Gentlemen:

Having lived most of my life at Benton Harbor, Michigan, and having been practically raised on cherry pie, I was most interested in getting some of the new Northstar pie cherries last summer. I will admit that I was skeptical, and consequently was utterly amazed at the wonderful pie this Cherry makes. I made the pie just the same as I did when using Montmorency Cherries except that I used no coloring nor almond extract to bring out the flavor. When I cut the pie the color was magnificent, being a deep rich cherry-red; and the flavor was the finest I have ever tasted in a cherry pie. In color and flavor Northstar beats any Montmorency pie I have ever made.

Yours truly,
MRS. WALTER MONTFORT.

CHERRY PITTER

We have found an excellent little cherry pitter that does a perfect job of pitting cherries and olives. Simple to operate—clean and efficient. \$1.25 each—or \$1.00 each when ordered with a Northstar or Meteor Cherry. Postpaid.

Prof. T. S. Weir, Ass't Supt. Minn. Fruit Breeding Farm standing with the original tree of Northstar when it was 11 years old.

Noted for their heavy production
the CHERRY-PLUM hybrids will be
popular with both family and friends

The Hybrid Cherry-Plum is one of the most easily grown and dependable fruits that we have. We like to grow them in bush form, as the fruit is more easily picked. Although crossed with the plum, these fruits have retained more of the cherry characteristics. They are large, meaty and absolutely wonderful for jam or sauce. They are not bad for eating either—tree ripened and fresh as they are when you grow them.

SAPALTA

A New, Sweet
Cherry-Plum Hybrid

Compass

Sapalta is a mouth-watering sight, as the **large fruits**, crowded together almost like grapes, begin to turn to a deep purple color. The flesh is also an intense purple. **Sapalta will bear the year after planting** and you can count on a good annual yield. The jam made from Sapalta is unusual, and will draw many compliments from those who have never before tasted it. We know you will enjoy this addition to your garden or orchard. Be sure to order a pollinizer cherry (either Compass or Hansen's Bush Cherry) to insure a good crop.

SAPA

A very popular, fine flavored cherry-plum that is **excellent for canning, eating fresh** and in sauce or pies. The fruit is large with a small pit, thin purple-red skin and wine-red flesh.

A very good commercial project would be a planting of Sapa or Sapalta, as one of the leading jam factories in Minneapolis is very enthusiastic about these cherry-plums, but can never buy anywhere near what they want.

POLLINIZERS

Cherry-plums need a pollinizer planted with them to insure good crops. We have found **Compass** and **Hansen's Bush Cherry** to be particularly effective as pollinizers. Be sure to include one or the other in every order of Sapa or Sapalta.

COMPASS

Compass is an excellent cherry-plum in its own right. **Makes excellent sauce and jelly.** Will bear the year after planting and is very hardy. Plant one in every group, or in larger plantings, one to every 8 to 10 trees of Sapa or Sapalta.

HANSEN'S BUSH CHERRY

Hansen's Bush Cherries are small plants—**growing only 3 or 4 feet tall.** They are easy to grow and where space is limited they can be planted within a few feet of Sapa or Sapalta. The fruit is good for preserves and they bear early, heavily, and annually.

Are you thirsty for a PEAR?

Delicious, Juicy, Tree-Ripened PEARS can be yours!

Many folks still do not believe that they can grow pears in the North. However, we do have **hardy pears** that you can grow very easily. Because pears have an upright habit of growth, they don't take up much room and will do well even in a lawn. Very ornamental, too, as the pure white blooms are out before apples or Flowering Crabs and add an early gay note to your yard! Plant two kinds for cross pollinating and you'll have loads of fruit.

Parker

PATTEN

A large, sweet, juicy pear that will amaze you with its delightful flavor. We recommend it for Southern Minnesota and areas of like or milder temperatures.

BANTAM ★★★

A Minnesota-developed variety with fruit the size of Seckel, **excellent for eating or canning**. The tree is a heavy, annual cropper. Hardy as a Duchess apple tree and can be grown wherever Duchess can be grown.

PARKER ★★★

Parker is most dependable in Southern Minnesota and similar regions.

We suggest trying it in favorable locations farther North, too. **The fruit is medium large, fine grained and of excellent quality.** We prefer Parker to Bartlett. Ripens in early September. Get some out this spring. When you start picking your own pears, you'll be glad you did.

GRAPES

What could be nicer than a **big bunch of sweet, vine-ripened grapes** from your own back yard? Grapes are easy to care for. Plant some along the back fence, or let them climb up a trellis but don't put off having your own. **Plant some this spring.**

BETA. A tame grape with the extra flavor and hardness of wild grapes. Excellent for juice and jelly. **Needs no winter protection.**

CACO. Most popular red grape. Extra large, rich, and **sweet**; delicious flavor. Winter cover needed in Minnesota.

CONCORD. Bears large bunches of **sweet, juicy, blue-black grapes** every year. Needs winter cover in Minnesota. **See Fredonia.**

FREDONIA. Fruit is equal to or better than Concord, and **ripens 3 weeks earlier**, thus better for Northern gardens. Requires winter protection in Minnesota.

PORTLAND. A large white grape of good quality. Requires winter protection in Minnesota.

VAN BUREN. Newest and best of the blue grapes—and earliest to ripen. Superb quality. Needs winter cover in Minnesota.

Mt. Royal

It's easy to have Huge, Juicy, Flavorful Plums

Plant Trees from This Assortment and
You'll Never Want Another "Shipped-in" Plum

★★★ Designates Varieties Introduced by the
Minnesota Fruit Breeding Farm

Why pay high prices for plums shipped in from distant areas—of necessity picked green and ripened enroute—when you can have better ones picked **orchard fresh** from your own trees? The **true flavor and sweetness** of a plum comes into it during its last few days of ripening on the tree. Until one has enjoyed the hearty goodness of a fully ripened plum, he really can't appreciate this wonderful fruit. Tree-ripened plums are mouth-watering when canned, too. Plum trees are not large and can be used effectively in the landscape border, especially such varieties as Mt. Royal, Stanley Prune, and Superior. Plant a tree or two this spring. They bear young so you won't have long to wait.

MT. ROYAL *The Hardest European Plum*

Many people consider the Mt. Royal to be the **highest quality plum** that can be grown in Minnesota. The fruit is medium in size, an attractive deep blue or purple; flesh is firm, juicy and **FREESTONE**. It certainly has flavor and we believe it is one of the very best for sauce that can be grown anywhere.

Mt. Royal is self fertile which means it can be planted alone and still bear heavily. The tree is medium in size and will fit into the yard or landscape very nicely.

MT. ROYAL PRICE: 3 ft. and up, \$1.75 each; 3 for \$4.85.
And remember, we pay the Postage.

RED GLOW ★★★

Hardy as a rock, this handsome new plum is of **good quality**, productive and can be grown almost anywhere. The fruit is a dark **bronze-red** with orange flesh. A very tasty plum.

PIPESTONE ★★★

For a **taste treat you'll never forget**, just try a huge, juicy **Pipestone** plum. Very large, Pipestone has few peers when picked sun ripened directly from the tree, with all the natural sugars and mouth-watering flavor that nature intended. Pipestone ripens in August and bears heavily every year. Good for canning, but especially valued for **eating fresh**. You'll say: "**It's the best yet.**" Don't lose another year—plant Pipestone this spring.

Red Glow

Home Orchard Plum Collection

This is a perfect selection to give you fresh, tree-ripened plums for every purpose.

STANLEY PRUNE

Do you like the Italian prune that is grown in California and shipped into the midwest in carload quantities every year? If you do—**Stanley** is the answer. Almost identical to the Italian prune in appearance, we like Stanley better because we get that extra flavor from tree ripening. Stanley is, of course, much hardier, having withstood 31° below zero at the New York Fruit Testing grounds **without injury**. It has withstood even lower temperatures in Minnesota.

The large dark blue prunes have a rich, sparkling yellow flesh that is firm and very sweet. Prunes are relatively new to this part of the country. But Stanley has proven itself—you need not worry about its hardiness; and when you have tasted the fruit—you'll wish you had more.

Redcoat

REDCOAT ★★★

You'll want seconds on dessert when you try a dish of these luscious plums in the middle of winter. **Perfectly freestone**. Redcoat is one of our best plums for canning. Has medium sized, bright crimson fruit of **excellent quality**. Trees are vigorous, hardy and highly productive. Bears young and heavily.

SUPERIOR ★★★

A huge, delicious red plum as large as any California plum. It has a rich, sweet flavor, is unexcelled for eating fresh and peels like a peach. Superior ripens in August and carries huge crops every year. Not as hardy as Pipestone, but can be safely grown anywhere south of Minneapolis.

Superior

PLUM POLLENIZERS

To be sure of fruit, include either a Toka or South Dakota as pollenizers with every group of plums except Mt. Royal and Stanley which are self fertile. If you have some plums that are not bearing well, plant a Toka or South Dakota to every 9 or 10 trees.

TOKA

A brilliant red plum with an unusual apricot-plum flavor. One of the very best for jam and canning. Many folks also like Toka for eating. Tree is shapely and ornamental as well.

SOUTH DAKOTA

One of the best Plum pollenizers, South Dakota is a good plum in its own right. Sweet and tasty, it is a valuable addition to the home planting.

Toka

Pipestone

Blueberry Offer

Because the plants are not self-fertile, we give you this special combination offer of three leading varieties:

- 1 Stanley, 12"-18", 3-yr. plant
- 1 Rubel, 12"-18", 3-yr. plant
- 1 Jersey, 12"-18", 3-yr. plant

1 each
of all
3 for

\$5.35

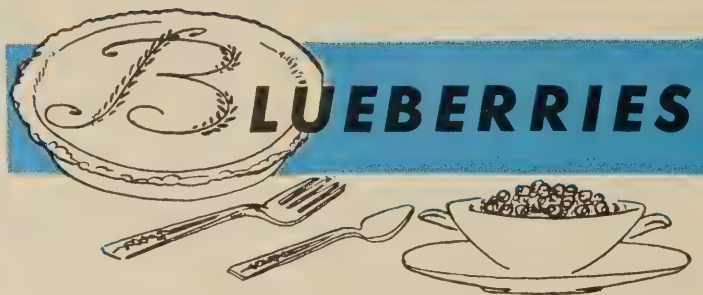

Prepaid

Complete directions with each order.

Free With each order of 3 plants, you will receive 1 pound of aluminum sulphate to make your soil acid. Work this into the top 5 inches of soil in accordance with the directions which will be included.

Nanking Cherry, below

Now you can have home-grown blueberries—big, luscious, marble-like berries so good **picked fresh** (and eaten with cream and sugar), delicious in pies or preserves, or frozen fresh for next winter.

The new perfected hybrids are big, shrublike plants which grow 4 feet or more high and just as broad. Planted in moist, acid soil, they will bear **heavy clusters of giant fruit** in 2 years. To make your soil acid, a 1-pound bag of aluminum sulphate is included free with each order.

A mixture of sand and peat is most desirable. If your site is not too moist, you'll have better luck mulching with sawdust or peat than with cultivation. Peat will furnish needed nitrogen. A little extra care will pay you well. **The plant itself is beautiful**, with creamy white, fragrant blooms in spring, followed by attractive, delicious fruit. **In fall the foliage turns a brilliant red.** Plants require a limited amount of winter protection and some pruning. They have no harmful enemies; require no spraying.

Complete Directions for Planting with Every Order.

Fruitful — Ornamental NANKING Cherries

ORIENT ★★★

This beautiful cherry should be considered for more than just its fruit. It is an outstanding example of a "dual purpose" plant. The **bright red tasty cherries** are excellent for pie, sauce or jelly. But in addition to the fruit, the **ornamental features** make it ideal for growing as a medium sized shrub in the foundation planting around the house or in the landscape border behind smaller plants such as Hydrangea, Alpine Currant or any of the roses.

One of the earliest fruits to bloom in the spring, it is indeed a sight as the hundreds of **snow-white blooms** burst open, to be followed by the **brilliant red cherries** that are equally ornamental and useful. An interesting combination of dual purpose plants is a planting of two Orient Nanking Cherries with 3 blueberries spaced irregularly in front of them. They serve not just as excellent shrubs but as an important source of **easy to grow fruit**.

Orient, the variety that we offer, is a grafted variety and shouldn't be confused with seedlings. It is the best variety selected by the Minnesota Fruit Breeding Farm.

Cumberland

*These unusual, hard to get Berries
are easy to grow at home*

EBONY KING *Blackberry*

A sensational new blackberry that is guaranteed to bear. The berries are very large, jet-black and luscious. Ebony King is a bush type blackberry, very strong and will carry heavy loads of fruit. We believe **Ebony King** is the best blackberry now grown and are certain that you will welcome a blackberry that can be counted on to produce liberally.

ALFRED Blackberry

Alfred has been the most widely planted blackberry in this section of the country. The large, long sparkling blackberries are indeed a treat. Called the Coreless blackberry, Alfred ripens earlier than Eldorado and is more productive.

CUMBERLAND Blackcap

Our vote goes to **Cumberland** among the black raspberries as the very best. There have been others—but **Cumberland** still ranks at the top because of its glossy black color, fine sprightly flavor and the ease with which it is grown. Blackcap jam is something that should be enjoyed by everyone. They're easy to start and easy to grow.

Thornless

BOYSENBERRY

A very unusual fruit, this huge berry—up to 2 inches long—is said to be a cross between the loganberry, dewberry, and blackberry. This unusual berry is so seldom found on the market that many people have never eaten it. The flavor is as pleasing as it is individual. The berries are sweet and juicy. You can eat them fresh for weeks, they are wonderful for pie, and make excellent sauce, jam and jelly. The thornless kind is easy to work with. Don't put off having your own boysenberries.

Ebony King

Sodus

Sodus Collection

An excellent assortment of unusual berries that you will enjoy having in your garden.

SODUS Purplecap

A cross between a red and a black raspberry, Sodus is a very tantalizing combination of the best of both kinds. Deliciously flavored with a zest unknown in other berries it is one of the very best for jam and jelly. Many people like it better than either the red or black raspberries. To see for yourself, just crush a cup of fully ripe Sodus, sugar lightly and pour over a dish of vanilla ice cream. Now there is real taste appeal. The plants are very husky and easy to grow.

Raspberries are inexpensive when grown at home
AND — they are very EASY to GROW

LATHAM ★★★ the "People's Choice"

Latham

Latham is the leading commercial and home variety of red raspberry. It is vigorous, easy to grow, a heavy producer, and hardy enough to stand sub-zero winters.

The fruit is large, dark red and firm; picks easily, keeps and ships well. Delicious eaten fresh, in sauce, jam, pies, or shortcake.

For the price of a crate of berries you can have enough plants to give you all the raspberries you want for fresh fruit, canning and freezing.

You can cut your grocery bills—and get a lot of satisfaction, too—by picking and enjoying your own home-grown fruit picked fresh for every meal. Your own berries have a better flavor, and there's no waste nor shrinkage.

Commercial growers report big yields and sure profits with Latham.

Returns run as high as \$400.00 to \$800.00 per acre in a single year. For such results, plant genuine Latham (Redpath Strain) from Andrews' healthy "certified mosaic-free" stock.

NEWBURGH A Promising Variety

Where Newburgh performs well, it has become very popular. It is excellent for either home or market. The fruit is very large, firm and doesn't crumble. Color is an attractive bright red. Plants are vigorous and very productive. In the area around Duluth, Minnesota, Newburgh has become a serious rival of Latham.

SUNRISE Extra Early, Flavorful

Sunrise, while proving to be very hardy, has performed better than any other raspberry in the southern half of the United States where raspberries do not normally perform well.

Dr. J. Harold Clark, formerly of the New Jersey Experiment Station writes: "The special value of Sunrise is its earliness."

Sunrise does ripen early—10 days ahead of Latham—and this commands a premium price on the market. The fruit is firm, fine textured, non-crumblly and possesses a fine flavor. Recommended for Southern gardens and where earliness is desired. Keep fruiting rows very narrow.

SUNRISE PRICES

We pay the Postage.

Sunrise

Indian Summer

The Best Everbearing Red Raspberry

The huge berries of Indian Summer will make your garden the envy of the neighborhood. Large and juicy with a rich raspberry flavor, they are a special treat eaten fresh or frozen. The only raspberry that keeps its color when canned makes it popular with the housewife. For something unusual try them mixed with rhubarb. Once you have tasted Indian Summer you will always want it.

Indian Summer grows vigorously, yields heavily and requires little care. The fall crop will sometimes be too late for Minnesota but the summer crop is as large or larger than any other.

Although the berries are a little soft for long shipment, commercial growers find them excellent for local sales because of the extra heavy yield. Mr. A. L. Shuttleworth, prominent New York grower, says: "A yield of 5 tons of fruit (660 24-pint crates) to an acre has been harvested from the summer crop here at my place." You can pick loads of delicious berries for your table with just 50 Indian Summer plants. For an ample supply for canning or freezing, too, plant one hundred. You'll save buying expensive fruit, have better berries and plenty of them.

Dr. George Slate of Cornell University, says: "When well grown the plants bear as heavy or heavier crops than most varieties. They are satisfactorily hardy in New York. The berries are large and of good quality. The fall crop is rather late in northern states. The plants do not become infected with mosaic even when grown near diseased plants."

Chief

For Hardiness and Early Season Plant **CHIEF** ★ ★ ★

Recommended for early market, for severe conditions and farm gardens. Chief bears excellent quality fruit through a long season. Well known in Canada, it has proven itself as one of the most vigorous and hardy varieties for northern regions. Chief has many of the good qualities of its parent Latham. Berries are firm, bright red, not quite as large as Latham but have a better flavor than some of the other reds. Chief is more resistant to drought, cold and disease.

Andrews'

Nothing tastes better than sweet, delicious, home grown strawberries picked "flavor-fresh" from your own garden. And frozen berries are just as good. Highest fruit in Vitamin C. Why pay high prices for fruit so easy to grow? Plant liberally this spring.

NEW

red rich
EVERBEARING

An Endorsement

George W. Nelson, Minnesota State Nursery Inspector, has the following to say of **Red Rich**: "I have examined hundreds of strawberry varieties in my work as a nursery inspector in Minnesota from 1914 to the present date. I have also grown from five to seven acres on my own farm at La Crescent since 1935. It is my opinion that the **Red Rich** variety is an **out-standing development** and is much superior, from every standpoint, to any other everbearing variety now grown. Red Rich combines the high qualities (honey sweetness—red rich color) of its parents, Wayzata and Fairfax, with high yield and vigorous growth. Its **flesh is firm and red clear through**. The color is an attractive glossy red."

It took 15,000 seedlings before the finest features of the Wayzata everbearing and the Fairfax June-bearing were developed in **Red Rich**—but it was worth it.

Order early to be sure of your plants this spring.

The Sensational New Strawberry that All America is talking about

A sensational new Everbearing Strawberry! Many growers say that **Red Rich** has combined all the good qualities of everbearing strawberries into one kind—sweetness, size, color, vigor and high yield.

A thousand words can't tell the whole story of Red Rich. The **huge, deep red, honey-sweet berries** make Red Rich just about the best strawberry available today. The plants are big and husky with a tendency to keep the berries off the ground. And **Red Rich** is really an **Everbearer**. Planted in early spring, it will bear from June or early July all through the summer and into the fall. Because of the **tremendous yield**, fewer plants are needed. One commercial grower told us that he paid for his plants with the berries harvested from the fall crop the same year he planted them.

Perfect for Freezing

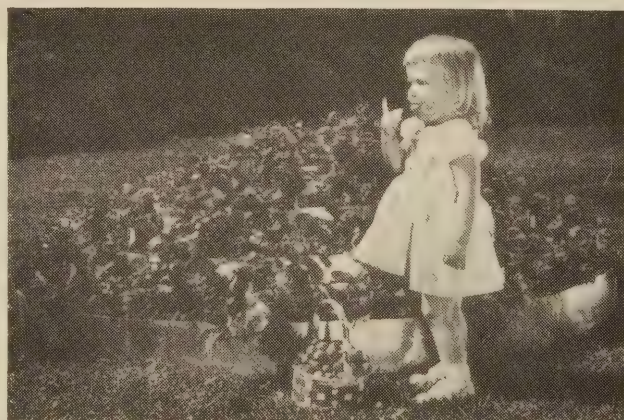

Red Rich is big, solid and firm all the way through. It ripens evenly and possesses an abundance of natural sugar. **Ideal for freezing**—and best of all it won't mush up when thawed. Don't lose a year with this amazing Strawberry. **Plant this spring.**

Try Berry-Set This Year—See Page 3.

PYRAMID

STRAWBERRY GARDENS!

In **one-third the space** of the conventional garden method, you can enjoy an abundant season of strawberry production right in your own back yard with a **Pyramid Garden**. Easy to pick from, easy to care for, the attractive Pyramid Garden adds beauty and real practical value to any garden or landscape. Bottom ring is 6 feet in diameter. Merely place first band on ground, fill with rich soil. Repeat simple operation for remaining rings. The simple modern way of growing strawberries. Garden Pyramid will accommodate 50 to 75 plants, depending on how you wish to space them. **Will not rust nor warp. Price, \$9.50. We pay the Postage.**

Strawberries

STRAWBERRIES

Are Vitamin-Rich!

Dr. S. A. McCrory, Brookings, South Dakota, writing in the Minnesota Fruit Grower, says: "The strawberry is the one fruit South Dakota grows that is equal to citrus fruit in Vitamin C content. A 3½ oz. serving, or approximately one-sixth of a quart of strawberries, is generally considered adequate for the daily requirement of Vitamin C."

ARMORE

Sunset-red in color and very uniform in size makes this new June-bearer one of our most beautiful strawberries. Excellent quality, too. Try some this year.

20th CENTURY

An outstanding everbearer recommended by University Experiment Stations the country over. Second only to Red Rich, it is superior in size, quality and vigor to other everbearers. Berries are bright red, fine textured, and very flavorful.

GEM

Widely planted everbearer. Hardy, quite drought resistant, fair quality.

PREMIER

Most dependable June-bearing strawberry. Good for home use or market. Blooms late so is seldom hurt by frost—yet bears early. Berries are of good quality, medium large, firm and very attractive.

Superfection

SUPERFECTION

Newest everbearer from Michigan. A vigorous grower producing large, sweet berries. Good producer of uniformly large fruit. Well liked by those who have it.

Vermilion

VERMILION

This new June-bearing variety has undergone extensive tests at the University of Illinois and other stations and has passed with flying colors. Rates with best in quality, production and freezing quality. Resistant to red stele and leaf spot.

DUNLAP

An old dependable June bearer. Berries medium in size and good for canning.

Pixwell Gooseberries

*Make Brighter, Clearer
Jelly - with your own
Garden Fresh
Currants and Gooseberries*

PIXWELL GOOSEBERRY

You'll want to try the appetizing pies and preserves made from this new, almost thornless gooseberry from North Dakota. It "picks well" because the berries hang on slender stems an inch below the branches. Its few thorns are rather soft, which makes picking a quick and easy operation. Pixwell carries heavy loads of large, fine quality berries. They turn from an attractive light green color to pink when they ripen. Bears very young. The Dominion Experiment Station at Morden, Manitoba, Canada, says: "Pixwell continues the leading gooseberry for Manitoba conditions. It is exceedingly vigorous and always bears heavy crops."

Colorful foliage makes Pixwell a most attractive ornamental bush. Plant some of these hardy, dependable bushes this year, in both the garden and shrub border.

Red Lake

RED LAKE CURRANT ★★★

Imagine having your fruit cellar shelves well stocked with clear, sparkling, bright, red currant jelly. The youngsters will love it. Currant mixed with raspberry makes a delicious jelly, too, and an outstanding dinner treat. Six bushes in your garden will give your family all the currant jelly they want. The large, scarlet-red berries grow in long clusters, well filled to the tip. Long stems make them easy to pick. They ripen in early midseason, but hold over a long period to use or sell as desired.

Introduced from Minnesota, Red Lake is now the most popular variety for home and market because of its high yield and vigorous growth. It is easy to grow, easy to pick, easy to sell.

Dr. J. Harold Clark, formerly of the New Jersey Fruit Experiment Station, says: "Red Lake has continued to yield fruit of large size borne on well-filled clusters. It has been superior in this respect to Fay, Wilder, Perfection, and London Market."

2-yr. heavy select plants: 70c each; 3 for \$1.95; 6 for \$3.55; 12 for \$6.00; 25 for \$10.00. We pay the Postage.

CASCADE CURRANT ★★★

Cascade has extra big berries, and is a splendid companion for Red Lake, ripening a week earlier. The bush stands a little more upright and is a splendid plant. Cascade is just as hardy as Red Lake, just as productive, has a larger berry but not as long a bunch.

Prof. Alderman, Chief of the Division of Horticulture, University of Minnesota, says of Cascade: "A very large-fruited currant with large clusters and very productive."

2-yr. heavy select plants: 80c each; 3 for \$2.25; 6 for \$4.20; 12 for \$7.20; 25 for \$12.50. We pay the Postage.

Be Proud of Your Yard and Garden

PLANT QUALITY NURSERY STOCK - THEN FEED IT

Nurish

the Nation's Finest Plant Food

For bigger, lovelier flowers . . . finer, more nutritious fruits and vegetables . . . more handsome shrubs, trees, and vines . . . a richer, greener lawn . . . to make all types of plants thrive . . . feed them NURISH, the Nation's finest plant food.

Plants Drink Their Food . . .

. . . NURISH Feeds Plants Nature's Way

There is nothing miraculous or mysterious about NURISH. Its amazing action is easily explained. Plants can absorb food in only one way . . . they MUST DRINK IT. Any plant food you apply must turn to liquid before the plant can use it. NURISH, newest advance in the exciting science of plant nutrition, dissolves in water to provide a rich nutrient which actually feeds the plant in nature's way . . . instantly. NURISH promotes quicker, more luxuriant growth . . . is especially helpful with newly set plants.

NURISH Is Fully Absorbed Through Both Roots and Leaves

Plants feed through both their roots and their leaves. When you apply NURISH . . . some food is taken in through the leaves, while the remainder is absorbed by the roots. NURISH works fast . . . is taken up by the plants within a matter of minutes after it is applied.

Complete direction folder including a Plant Feeding Guide is provided with each carton of NURISH. If you are not fully satisfied with the results, the purchase price will be cheerfully refunded.

For Weed Control in Strawberries, Gladiolus, Asparagus and Corn use "CRAG" - - HERBICIDE 1

The much talked about weed killer, CRAG Herbicide 1 is now available in a small, home garden size.

CRAG Herbicide 1 is especially recommended for use in strawberries, field and sweet corn, asparagus, and gladiolus. Until recently, CRAG Herbicide 1 was recommended for use on strawberries only. During the 1951 season, more than 5,000 acres of strawberries were treated with this new weed killer with excellent results. Increased yield, along with a great saving of hand hoeing, was accomplished.

CRAG Herbicide 1 combines effective weed control with exceptional crop safety because of its unique action. It can be sprayed directly on the foliage of strawberries, asparagus, corn, gladiolus and many other established plants without causing injury. In contact with soil, however, it is changed to a powerful weed killer which kills or stunts most weeds or grass seedlings that are germinating in the top layer of

Perfectly Balanced Analysis

Plants need 3 major growth elements (nitrogen, phosphoric acid, potash) and a number of minor elements for perfect growth. NURISH contains nitrogen, phosphoric acid and potash in a perfectly balanced proportion (20-20-20), plus the necessary amounts of the minor elements. The formula was developed by the research scientists of the famous Battelle Memorial Institute of Columbus, Ohio.

The 1 $\frac{1}{2}$ pound NURISH package comes to you in an attractive dispenser box containing 32 MOISTURE-PROOF, pre-measured packets, each making 2 gallons of liquid plant food when dissolved in water. Simply break open a packet, pour into 2 gallons of water, and you are ready to give your plants a feast.

We use NURISH in the nursery and get excellent results. We like NURISH because it is in perfect balance, the plants take it up at once, and we know they are getting a COMPLETE feeding — everything they need for rapid, healthy growth.

soil. Thus, this new herbicide is used by simply spraying a water solution of the chemical uniformly over the soil surface.

New Home Garden Size Available

The new home garden size, which will treat 3,000 square feet, makes it practical and economical to use CRAG Herbicide 1 in the home garden. It will save hours of tedious hoeing — and increase the yield as well.

No Garden is Complete without RHUBARB and ASPARAGUS

Rhubarb and Asparagus are about the most underrated, easy to grow, and easy to prepare garden products ever known. It has been established that rhubarb is an outstanding source of Vitamin C—and the first one available in the home garden.

Asparagus has long been heralded as one of the best of all vegetables.

It is easy to digest, and a very good source of minerals and vitamins. And if you like to freeze your vegetables—we know of nothing easier to handle.

Both asparagus and rhubarb are extremely hardy and once planted they will produce indefinitely. They grow so well and so easily that often we fail to fertilize them. An annual feeding though, makes them more valuable to us from a nutritional standpoint.

It is difficult to buy good fresh rhubarb and asparagus on the market, so why not grow your own? It's so easy—and no garden is complete without them.

Valentine

MILD and SWEET

Valentine is the newest and best of the red rhubarbs. It is sweetest of all, requiring the least sugar. Makes delicious pies and a smooth, tender, bright red sauce. Combines rich flavor, high quality and vigorous growth. Excellent for home use and freezing.

A rare taste treat, Valentine was among 25 varieties tested at the Dominion Experiment Station, Morden, Manitoba, Canada. Six persons tasted cooked rhubarbs identified only by numbers. The Morden Station reports: "Valentine rated highest. Color was an even bright red; texture smooth and tender. Flavor was pleasing with a slightly tart after-taste. All testers accorded Valentine the highest standard." Prices: 2 for \$2.25; 6 for \$6.00; \$1.25 each. We pay the Postage.

Valentine

The New "No. 500" ASPARAGUS

You'll love this new, extra green, extra tender asparagus. It's just full of the vitamins and minerals you need. Eat all you want for 6 or 8 weeks, then can or freeze a winter's supply.

"No. 500" is top quality for commercial use as well as for home use. The tight heads, relatively free from a purple overcast, are a uniform green to the ground. Most desirable for fresh use, canning, or freezing. Prices: 1-yr. heavy, 25 for \$1.50; 50 for \$2.65; 100 for \$4.85. We pay the Postage.

Big - Beautiful! Tuberous Rooted **BEGONIAS**

(Double-Flowered Camellia Type)

Few flowers surpass, for pure beauty, these newly developed Tuberous-rooted Begonias. They have **huge double blooms** closely resembling the lovely *Camellia* of Southern gardens; perfectly formed and carried on long stems.

The best of all flowers for shady locations. Ideal for planting on the **north side** of the house or under trees where few things do well.

These begonias can be potted early in March and started in the house to be set outside when the weather permits.

Begin this spring to grow your own cor-sages. We know you will love them.
